Accreditation Standards for Bachelor Nursing Education Programs in Jordan (Application Manual)

1. Introduction

1.1. Purpose

This manual is designed to translate the national accreditation standards issued by the Accreditation and Quality Assurance Commission for Higher Education Institutions (AQAC) and the Jordanian Nursing Council (JNC) into clear operational steps, evidence requirements, and standardized templates for use by Bachelor of Science in Nursing (BSc Nursing) programs in Jordan. It provides a structured framework to help program leaders and quality assurance teams understand each standard, plan, implement, and document compliance with the six national standards. and maintain accreditation for their Bachelor of Nursing programs.

Each standard in this manual includes:

- Application (what to do) including: Key Elements, Responsibilities, and KPIs (Measurement)
- Supporting Documentation (what to collect)
- Templates/checklists (how to document)

1.2. Legal and Regulatory Basis

Issued under AQAC Board Decision No. (284/13/2021), dated 7 April 2021.

Based on Article (7) of the Quality Assurance and Accreditation Commission for Higher Education Institutions Law and amendments.

Must be read in conjunction with:

- Jordanian Nursing Council (JNC) Standards and Competencies of Registered Nurses (2015).
- JNC regulations for training facilities.

1.3. Scope

This manual applies to all Bachelor of Nursing programs operating in the Hashemite Kingdom of Jordan, both public and private institutions, that are seeking either initial accreditation or renewal/re-accreditation. The manual covers all aspects of program review, including Standard 1: Governance, Standard 2: Institutional Support and Resources, Standard 3: Faculty Qualifications and Scholarship,

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Standard 4: Curriculum Design, Assessment and Evaluation, Standard 5: Student Support and Progression, and Standard 6: Program Effectiveness and Continuous Improvement. It also outlines procedures to prepare for external site visits and to implement post-visit action plans. The 6 standards and specific criteria are presented in Table 1.

Table 1: Summary of Standards and Criteria

Standard	Criteria
Standard 1: Governance	Criterion 1.1: The program's mission, goals, and expected program outcomes Criterion 1.2: The governance structure has a defined role for faculty, students, and community stakeholders in decision-making. Criterion 1.3: The faculty, the students are representative in the institution and the nursing program committees
Standard 2: Institutional Support and Resources	Criterion 2.1: Physical Facilities and Clinical Resources Facilities are adequate to support teaching, simulation, and practical training Criterion 2.2: Financial Resources Criterion 2.3: Library and Learning Resources Criterion 2.4: Technology and E-Learning Infrastructure Criterion 2.5: Evaluation of Resources
Standard 3: Faculty Qualifications and Scholarship	Criterion 3.1: Faculty Educational and experiential qualifications. Criterion 3.2: The program provides opportunities for the faculty members in teaching, clinical practice, and scholarly engagement. Criterion 3.3: Faculty Development Criterion 3.4: Clinical Educator Criterion 3.5: Student-Faculty Ratio in Clinical Training
Standard 4: Curriculum Design, Assessment and Evaluation	Criteria 4.1. The Curriculum aligns with Regulations of Higher Education, the National Accreditation Frameworks, and guidelines Criterion 4.2. Course Learning Outcomes and Progression Criterion 4.3 Teaching and Learning strategies Criterion 4.4. Curriculum Development and Continuous Review Criterion 4.5. Program Structure, Credit Hours, and Contact Time Criterion 4.6. Simulation-Based Learning Environments Criterion 4.7. Clinical and Practicum Experiences

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

	Criterion 4.8: Student Evaluation Methods
Standard 5: Student Support and Progression	Criterion 5.1: Student Support Services Criterion 5.2: Student admissions and progression
Standard 6: Program Effectiveness and Continuous Improvement	Criterion 6.1: Program Learning Outcomes Assessment Criterion 6.2: Program Completion Rate Criterion 6.3: Licensure/Certification Exam Pass Rate Criterion 6.4: Job Placement Rate

1.4. Reference Documents and Standards

This manual draws upon and is aligned with the following key documents and standards:

- Jordanian Nursing Council (JNC) / National Nursing Education and Competency Standards.
- Accreditation and Quality Assurance Commission (AQAC) / Accreditation Standards and Quality Assurance Manual for Nursing and Midwifery Programs.
- Ministry of Higher Education and Scientific Research (MoHE)/ Higher Education Policies, Licensing and Program Approval Regulations.
- Health Care Accreditation Council (HCAC)/ Clinical education and patient safety standards applicable to clinical training sites.
- All relevant international or external accreditation frameworks used as benchmarks (Commission on Collegiate Nursing Education (CCNE), Quality and Safety Education for Nurses (QSEN) competencies, or World Health Organization (WHO) nursing education guidelines).

2. General Accreditation Process

2.1. Pre-Application

Table 2 presents the core accreditation areas, key requirements, and evidence of compliance that Bachelor of Nursing programs in Jordan must address when preparing for accreditation.

Table 2: The core accreditation areas

Area	Requirements
Accreditation Status	The university/program must have a valid institutional license and no outstanding infringements or fines (Article 5).
Program Planning	Documented program philosophy, End program learning outcomes (EPLOs), curriculum Matrix, faculty, and clinical resources.
Compliance Evidence	All standards of the AQACHEI Guidelines were met and documented.

2.2. Submission Process

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Table 3 summarizes the core steps involved in preparing and applying for accreditation of Bachelor Nursing Education Programs in Jordan. It is designed as a roadmap to guide nursing programs from the initial self-assessment stage through to the site visit preparation. Each step highlights the main activity to be carried out and the unit responsible for implementing it, ensuring clear accountability and efficient coordination throughout the accreditation process.

Table 3: The core steps of preparing and applying for accreditation

Step	Description	Responsible Unit in the program
Step 1: Self-Assessment	Review each criterion, collect evidence, and identify gaps.	Accreditation Committee
Step 2: Action Planning	Develop an action plan with clear timelines to meet the specified criteria.	Dean + Program Committees
Step 3: Evidence Compilation	Gather all documents listed under each criterion.	Quality/Accreditation Committee/ Officers
Step 4: Stakeholder Engagement	Involve students, faculty, and community stakeholders in the review and feedback process.	Dean + Committees
Step 5: Submission	Submit the self-study report, action plans, and evidence to AQAC.	Dean
Step 6: Site Visit Preparation	Prepare brief presentation, facility tours, and evidence binders. Prepare faculty, students, and clinical partners for interviews.	Accreditation Team
Step 7: Post Site Visit	Respond to AQACHEI recommendations or deficiencies, and provide an action plan and evidence of correction	Dean + Committees

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

3. Structure of the Self-Study Report (SSR)

3.1. General format

Table 4 presents the SSR format. This guideline ensures consistency, clarity, and completeness of the SSR required for accreditation of Bachelor Nursing Education Programs in Jordan. It also standardizes the use of hyperlinks for electronic evidence submission.

Table 4: The SSR format

Section	Content	Notes
Cover Page	Title of the report, program name, institution, date.	Include institution logo.
Table of Contents	Automatically generated.	Update after finalizing.
Executive Summary	1–2 pages overview of the program, purpose of the SSR, key highlights.	
Introduction	Program history, context, objectives, and how accreditation benefits the program.	
Methodology	Describe how self-study was conducted (data sources, stakeholders, committees).	
Compliance Narrative	Address each Standard and Criterion individually.	
Supporting Evidence Index	Table listing all evidence documents with hyperlinks.	
Appendices	Additional data, charts, or required documents.	

3.2. Writing the Narrative for Each Standard

1. **State the Standard & Criterion** (use the same numbering as AQAC standards).
2. **For each criterion:**
 - A. **Describe Current Practice:** explain how the program meets the criterion.
 - B. **Present Data/Evidence:** include tables or charts.
 - C. **Attach Supporting Documents:** insert a hyperlink to evidence.
 - D. **Analysis & Continuous Improvement:** discuss strengths, challenges, and planned actions.

• Example format for a criterion:

Criterion 2.1 Physical Facilities and Clinical Resources

Narrative: Describe the adequacy of classrooms, labs, simulation centers, and clinical placements.....etc

Evidence: [Facility Floor Plan \(PDF\)](#) | [Clinical Affiliation Agreement \(PDF\)](#)

Analysis & Actions: Outline any planned improvements.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

3.3. Formatting Standards

Table 5 introduces the formatting standards that should be followed to ensure consistency, clarity, and unity throughout the SSR.

Table 5: The formatting standards

Element	Recommendation
Language	English
Font	Times New Roman or Arial, 12 pt.
Line Spacing	1.5
Margins	2.5 cm on all sides
Headings	Use consistent heading styles (Heading 1 for Standards, Heading 2 for Criteria).
Tables	Label and number sequentially; provide descriptive titles.
Figures/Charts	Caption below each figure.
Page Numbers	Bottom right corner.

3.4. Hyperlinking Evidence Documents

- **Step 1: Store evidence documents electronically** (PDF or DOCX) in a well-organized folder structure, e.g.:
 - /Evidence/Standard1
 - /Evidence/Standard2
- **Step 2: Name files clearly** (e.g., “Faculty_List_2025.pdf” instead of “doc1.pdf”).
- **Step 3: Insert hyperlinks** in the SSR:
 - In Word: highlight the text (e.g., “Faculty List”), right-click → *Link* → *Insert Link* → browse to the file or paste URL if stored in the cloud.
- **Step 4: Test all hyperlinks** before submission to ensure they open correctly.
- **Step 5: Provide an Evidence Index Table** at the end of the SSR listing all evidence and hyperlinks.

Example:

Table 6: Evidence Index Example Table

No.	Evidence Title	Hyperlink	Standard/Criterion
1	Organizational Chart	Open Document	Standard 1, Criterion 1.2
2	Faculty Licenses	Open Document	Standard 3, Criterion 3.1
3	Simulation Lab Photos	Open Document	Standard 4, Criterion 4.6

3.5. File Submission

- Submit the **final SSR** in Word or PDF format.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

- Compress all evidence documents in a single zipped folder or provide a secure cloud folder link.
- Ensure file naming and hyperlinking remain intact after uploading to the cloud.
- Include a **ReadMe file** explaining folder structure.

3.6. Quality Checks Before Submission

- Run a spell and grammar check.
- Ensure consistency of Standard and Criterion numbering.
- Confirm every claim in the narrative has corresponding evidence.
- Validate hyperlinks.
- Review and approval internally by the Accreditation Committee before submission to AQAC.

(Application Framework)

Core Standards and How to Apply Them

Criterion	Key Elements	Responsibilities	KPIs (Measurement)	Supporting Documentation	Templates/Checklists *
Standard 1. Governance					
1.1 The program's mission, goals, and expected program outcomes are written and accessible to students, faculty, and other institutions	The mission, goals, and values of the program align with those of the organization and relevant professional standards and are reviewed regularly to ensure continued relevance and consistency.	Dean/ Program Administrator Faculty Council Students & Stakeholders	- % alignment between program mission and institutional mission - Frequency of mission and goal review (at least once every 3 years) - Documentation of stakeholder involvement in review	-Mission, goals, and expected outcomes for the institution and the nursing program. -Copies of all professional nursing standards and guidelines used by the program. -Periodic review of the mission, goals, and expected program outcomes. -Documents show publicity of mission, goals, and expected outcomes in students'/faculty handbooks,	- Template 1.1A: Program Mission, Goals & Values Statement - Template 1.1B: Alignment Matrix between Institutional and Program Mission and how to measure % of alignment (KPI) - Template 1.1C: Mission Review Meeting Minutes
	Expected program outcomes may be expressed as competencies, objectives, benchmarks, or other terminology congruent with institutional and program norms.	Dean/ Program Administrator Curriculum Committee	- Published list of End Program Learning Outcomes (EPLOs) - Mapping of EPLOs to institutional graduate attributes - % of courses aligned with defined EPLOs		Template 1.1D: End Program Learning Outcomes (EPLO) / Course Mapping Matrix

هيئة الاعتماد وضمان الجودة
THE ACCREDITATION & QUALITY ASSURANCE COMMISSION

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

	Community interest is defined by the nursing program and community needs and expectations are considered in the periodic review of the mission, goals, and expected program outcomes.	Dean/ Program Administrator Community Advisory Board Quality Assurance Committee	- Frequency of community and stakeholder consultation ($\geq$ once every 3 years) (if there is any change or if needed) - % of recommendations integrated into program goals (Percentage integrated= (Total number of relevant recommendations/Number of recommendations integrated into program goals) $\times 100$) - Existence of a documented community feedback mechanism	Catalogs, or other sources, including the website or advertisement materials. -Evidence that the needs of the program's identified with the community needs. -Current faculty strategic and action plans.	- Template 1.1E: Community Consultation Report - Template 1.1F: Stakeholder Feedback Summary Form - Template 1.1G: Action Plan Based on Community Input
1.2 The governance structure has a defined role for faculty, students, and community stakeholders in decision-making.	The organizational structure of the nursing program clearly delineates lines of authority and accountability within the institution and the faculty, ensuring effective governance and administrative oversight.	Dean / Program Administrator Institutional Governance Office Quality Assurance Committee Human Resources Department	- Existence of approved organizational chart - Frequency of governance structure review (at least every 3 years) - % of faculty and staff aware of reporting and accountability lines	Organizational structure of the institution and the program -Detailed CV of the nurse administrator/dean with clear qualifications. -Experiences and leadership	Template 1.2 A: Nursing Program Organizational Chart

هيئة الاعتماد وضمان الجودة
THE ACCREDITATION & QUALITY ASSURANCE COMMISSION

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

	Stakeholders and community representatives are represented in the governing structure and have opportunities to participate in decision-making regarding program improvement.	Dean/ Program Administrator Community Advisory Board Faculty Council	- # of stakeholder representatives on advisory or governance committees - Frequency of stakeholder engagement meetings - % of action items from stakeholder input implemented	abilities, and appointment decision -Job descriptions of the faculty administrative positions	- Template 1.2B: Advisory Committee Membership List - Template 1.2C: Advisory Participation Meeting Minutes - Template 1.2D: Advisory Feedback Action Plan
	The program dean/administrator has the qualifications, the authority, and the ability to lead the nursing program. Holds a nursing degree that is required by the academic and regulatory institutions, Licensed and has the academic and administrative experience to fulfil the assigned roles and responsibilities.	Human Resources Department Dean / Program Administrator Institutional Accreditation Office	- Documentation of dean's academic and professional qualifications - Dean holds valid nursing license (Yes/No) - Evidence of administrative experience (Years and positions held) - Regular performance evaluation conducted (annual)		-Any available template, Reports, and records (if needed) according to the institution's policies and procedures of master file including Curriculum Vitae (CV), valid nursing license, academic license. - Template 1.2E: Dean's Annual Performance Evaluation Report
1.3 The faculty, the students, and community stakeholders are represented in the institution and nursing program committees and	- Students have opportunities to participate in governance activities for the governing organization and the nursing program.	- Ensure that students are selected or elected to participate in major governance committees (curriculum,	- % of institutional/program committees with student representation - Number of governance activities involving students per academic year	-Evidence of formal representation of the nurse administrator, faculty, students, and stakeholders in institutional	- Template 1.3 A: Student Committee Membership List Any available template, Reports, and records (if needed) according to the

هيئة الاعتماد وضمان الجودة

3.2: The program provides opportunities for the faculty members in teaching, clinical practice, and scholarly engagement.	- The program provides opportunities for the faculty members for teaching, research, clinical practice, and scholarly engagement. -Evidence-based teaching/instructional strategies that are relevant for all methods of delivery. ✓ Standards of clinical practice. ✓ Assessment and evaluation methods ✓ Research publications and scholarly engagement/collaboration in the field of nursing reflecting diversity of specialized areas, serving national research priorities and linked to SDGs.	- Dean, departments' heads→ Provide training and support for teaching and scholarly activities. Departments' heads, research committee→ Encourage participation in research and clinical engagement. - Departments' heads→ Integrate evidence-based teaching methods.	- % of faculty engaged in research/publications per year - % of faculty attend teaching/clinical workshops. - % of Student and peer evaluations of teaching. - Number of collaborative research projects.	-Course syllabi showing evidence-based methods (e.g., flipped classroom, simulation, case-based learning). -Faculty development/training progressing records and plan on academic/teaching methods. -Evaluation reports of teaching effectiveness (student feedback, peer review). -Policies or guidelines promoting evidence-based pedagogy. -Curriculum committee meeting minutes discussing teaching strategies. -Records of scholarly involvement showing research contribution and collaborations (e.g., publication, rate of publication per faculty member, etc...)	Template 3.2 A: Faculty Development / Training Progress Records Template 3.2 B: Faculty Development Plan (Academic & Teaching Methods) Template 3.2 C: Scholarly Involvement and Research Contribution Records
3.3 Faculty Development	Teaching -The availability of continuous professional development opportunities -The integration of evidence-based instructional strategies into the	-Dean, QA/Accreditation Committee → Develop and implement CPD plans. Support teaching innovation.	- Percentage of faculty participating in CPD activities annually (Target: ≥80% of faculty) - Average number of CPD hours completed	-Plan and records of faculty training: showing a focus on pedagogy, technology in education, assessment methods, and curriculum development.	Template 3.3 A: Faculty Development / Training Progress Records

الدليل الإرشادي لمعايير الاعتماد الخاص ببرامج التمريض

	curriculum reflects the program's commitment to teaching excellence. - Maintaining a balanced faculty workload to ensure that instructors have adequate time for lesson preparation, student engagement, and curriculum planning.	Encourage participation in curriculum design and research. -Departments' heads→ Monitor workload balance.	per faculty member per year (Target: $\geq 20-30$ hours/year) - Percentage of faculty reporting improved teaching competence after CPD (via post-CPD surveys) (Target: $\geq 85\%$ positive responses) - Increase in faculty certifications or advanced credentials obtained annually (Target: Year-on-year increase of 5–10%) - Impact of CPD on teaching performance (Measured by improvement in peer evaluation or teaching observation scores pre/post CPD)	-CPD policy documents or faculty development plans that describe institutional expectations and support mechanisms for ongoing learning. -Annual report showing feedback, course syllabi and teaching portfolios -Teaching observation or peer review reports that highlight the use of active learning and evidence-based methods in the classroom. -Faculty development records indicating training in evidence-based or student-centered pedagogy, faculty satisfaction, working load records.	Template 3.3 B: Faculty Workload Records
	Scholarship -The presence of institutional support mechanisms for scholarly work and innovation.	-Deanship of Scientific Research→ sets up funding, grants, mentorship, and infrastructure for scholarly activities.	- Number of internal research grants or funds provided per year - Number of workshops, training sessions, or	-Official policies or guidelines outlining research funding opportunities, seed grants, or protected research time.	Any available template, Reports, and records (if needed) according to the

هيئة الاعتماد وضمان الجودة
THE ACCREDITATION & QUALITY ASSURANCE COMMISSION

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

	-Faculty involvement in nursing-related or interdisciplinary/collaborative research projects -Clinical Practice -The program encourages faculty to maintain their clinical competence. -Collaborative agreements with clinical institutions that facilitate faculty involvement in practice settings.	Ensures policies and resources support research and innovation. May support faculty development programs related to scholarship. -Faculty Members themselves→ Expected to actively participate in research projects and collaborations. -Department heads→ Facilitate research opportunities and mentorship -Faculty Members→ Responsible for actively maintaining and updating their clinical skills. -Department's Head → Facilitates opportunities for continuing education, workshops, and clinical skill refreshers.	seminars on research skills annually - Availability of research infrastructure (labs, databases, software, funding for conferences) - Policies or procedures supporting interdisciplinary and innovative research initiatives - % of faculty who participate in continuing education or professional development annually - Number of workshops or training sessions attended per faculty member - Number of faculty maintaining current licensure or clinical certifications - % of faculty involved in clinical practice placements per academic year - Number of joint initiatives (training, research, or practice projects) between the university and clinical partners	-Records of internal and external funding calls and awarded grants (including names of faculty recipients). -Strategic plans or annual reports that prioritize or allocate resources for research development. -Documentation showing active research participation, such as copies of published journal articles, Institutional repository links, book chapters, or conference proceedings. -Documentation of public lectures, webinars, or community dissemination activities related to research. - showing that faculty are supported in maintaining their clinical skills that including records of clinical hours, rotations, or part-time practice engagement by faculty -- licensure/registration renewal certificates based on CPD national guidelines.	institution's policies and procedures Any available template, Reports, and records (if needed) according to the institution's policies and procedures
	Clinical Practice - The program encourages faculty to maintain their clinical competence. Collaborative agreements with clinical institutions that facilitate faculty involvement in practice settings.				

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

		-University Dean of Nursing, Office of Academic Affairs→ Negotiates and establishes formal agreements with hospitals, clinics, or community health settings. -Clinical Placement Coordinators → Manages logistics, MOUs, and scheduling for faculty involvement.		-Training or continuing professional development certificates related to clinical skills. -Faculty schedules or contracts that allocate time for clinical practice. -Institutional policies requiring clinical engagement of the teaching staff. -Signed Memoranda of Understanding (MOUs) or affiliation agreements between the program or the representing entity and providers of clinical training facilities. -Joint appointment letters or documents outlining faculty roles within partner institutions. -Clinical teaching agreements or schedules listing faculty assignments in hospital or community settings.	
3.4 Clinical Educators (Faculty, Clinical Instructors, and Preceptors)	✓ Clinical Instructors ✓ -Clinical instructors refer to those who are appointed to conduct/supervise clinical teaching of students and teach when needed. They should have:	-Dean, departments' heads→ - Recruit qualified clinical instructors and preceptors	- % of clinical instructors meeting minimum qualifications. -% maintaining valid licensure. - % completing CE on teaching/learning.	-Curriculum Vitae (CV) for each clinical instructor. -Copies of academic degree certificates -Copy of JNC certification Employment/appointment letter stating start date and	-Template 3.4 A: Clinical Instructor File

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

	✓ -A minimum of a master's degree with a major in nursing and certified as an advanced specialist by JNC, or a bachelor's degree with a higher or professional diploma in nursing and certified by JNC as "specialist" according to specialization by-law ✓ -A minimum of 2 years of clinical experience before appointment ✓ -Currently licensed and have current registration ✓ -complete a continuing education on teaching and learning and clinical evaluation. Preceptors The program uses preceptors who are part-time clinical instructors when needed in clinical teaching and supervision of students ✓ -Hold the nursing educational qualifications as stated by the nursing program and JNC.	- Ensure ongoing professional development. -Maintain documentation of credentials and training.	-Preceptor-student ratios.	role Evidence of at least two years' clinical experience prior to appointment (employment history, reference letters, or service record). -Current valid nursing license continuing education records for at least 10 hours of educational preparation in teaching, learning, and clinical evaluation. -Role and responsibility descriptions (job description) -Institutional policy for recruitment and appointment of clinical instructors. -List of preceptors' CVs for per semester, including those part-timers -List of educational, experiential, qualifications, and current licensure	-Template 3.4 B: Preceptors (per Semester)
--	---	--	-----------------------------------	---	---

*Any available template, Reports, and records (if needed) according to the institution's policies and procedures

Appendices

Templates and Checklists Sample Forms Supporting Policies and Guidelines

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

This document contains all templates mentioned in the Accreditation Manual. Each template is provided in a blank format ready for use.

Any available template, Reports, and records (if needed) according to your institution's policies and procedures are accepted.

Note: All templates and guiding frameworks are proposed to facilitate and organize the work and are not mandatory, provided that the program has its own templates, guidelines, and instructions which are aligned with the university's policies and meet the requirements of criteria in all standards

Standard 1: Governance

Template 1.1A: Program Mission, Goals & Values Statement

- Institution: _____
- Faculty/College: _____
- Department / Nursing Program: _____
- Academic Year: _____
- Prepared by: _____
- Approved by: _____
- Date of Approval: _____

1. Program Mission Statement

(Provide a clear and concise description of the nursing program's mission. It should align with the institution's overall mission and reflect the program's commitment to education, practice, research, and community service.)

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Arabic (if bilingual version desired):

2. Program Goals

(List measurable goals that support the mission and guide program operations and outcomes.)

Goal No.	Program Goal	Linked to Institutional Goal / Objective
1		Goal 1:
2		Goal 2:
3		Goal 3:
4		Goal 4:
5		Goal 5:

3. Program Core Values

(List the fundamental beliefs and guiding principles of the nursing program.)

Core Value	Description

4. Alignment Table

Program Component	Institutional Alignment	Professional / Regulatory Alignment (e.g., JNC, WHO, ICN)
Mission		
Goals		

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Program Component	Institutional Alignment	Professional / Regulatory Alignment (e.g., JNC, WHO, ICN)
Values		

5. Review and Evaluation Record

Date of Review	Participants (Committee / Faculty)	Changes / Recommendations	Approval Authority	Next Review Date

6. Signatures

Program Director / Dean: _____	Date: _____
Quality Assurance Committee Chair: _____	Date: _____
Institutional Approval: _____	Date: _____

Template 1.1B: Alignment Matrix between Institutional and Program Mission

Alignment Matrix

Institutional Mission Component	Related Program Mission Element	Evidence of Alignment / Integration	Comments / Notes

Guideline for % of alignment (KPI)

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Step 1: Break the Institutional Mission into Measurable Components

First, decompose the institutional mission statement into distinct, assessable components (themes or commitments).

Example: Institutional Mission Components

- Academic excellence
- Student-centered learning
- Research and innovation
- Community engagement
- Ethical and professional values

✓ Each component should be clear, non-overlapping, and observable.

Step 2: Map Program Mission Statements to These Components

Binary Scoring (Recommended for clarity)

1 = Aligned

0 = Not aligned

Institutional Mission Component	Program Alignment (1/0)
Academic excellence	1
Student-centered learning	1
Research and innovation	1
Community engagement	0
Ethical and professional values	1

Calculate the Alignment Percentage

Analysis Summary

Alignment Dimension	Degree of Alignment (1/0)	Strengths	Areas for Enhancement

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Alignment Dimension	Degree of Alignment (1/0)	Strengths	Areas for Enhancement
Alignment percentage**	%		

**Use the formula: Alignment Percentage = (Total Institutional Mission Components/Number of Aligned Components) ×100

Review and Approval Record

Date of Review	Reviewed by (Committee / Faculty)	Summary of Findings / Recommendations	Approved by	Next Review Date

7. Signatures

Program Director / Dean: _____	Date: _____
Quality Assurance Committee Chair: _____	Date: _____
Institutional Representative: _____	Date: _____

Template 1.1C: Mission Review Meeting Minutes

This Template is used as *documented evidence* that the nursing program regularly reviews its **mission, goals, and values**, with input from faculty, students, and stakeholders.

Institution: _____

Faculty/College: _____

Department / Nursing Program: _____

Meeting Date: _____

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Time: _____ Venue: _____
Prepared by: _____ Approved by: _____

1. Meeting Details

Item	Information
Meeting Title	Nursing Program Mission, Goals, and Values Review
Type of Meeting	☐ Regular ☐ Extraordinary ☐ Annual Review
Chairperson	_____
Recorder / Secretary	_____
Attendees	(List names, titles, and affiliations)
Absentees (with apologies)	_____
Observers / Stakeholders	_____

2. Meeting Agenda

Agenda No.	Agenda Item / Discussion Topic	Lead Person	Time Allocated
1	Review of current program mission and alignment with institutional mission	Dean / Program Director	15 min
2	Discussion on program goals and measurable outcomes	Faculty Representatives	20 min
3	Review of program core values and relevance to nursing standards	QA Committee	15 min
4	Stakeholder feedback and recommendations	Community / Student Reps	15 min
5	Action plan and approval process	Committee Chair	10 min

3. Summary of Discussion

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Agenda Item	Summary of Discussion Points	Decisions / Agreements	Responsible Person(s)	Timeline / Deadline
1				
2				
3				
4				
5				

4. Feedback and Comments

Record key suggestions or reflections from faculty, students, community partners, or other stakeholders.

5. Actions and Follow-up Plan

Action Item	Person Responsible	Resources Required	Target Completion Date	Status / Remarks

6. Summary of Key Decisions

Decision / Resolution	Approved by	Date

7. Next Review Schedule

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

- Next Mission Review Date: _____
- Frequency of Review: ☐ Annual ☐ Biennial ☐ As Needed

8. Signatures

Name	Position	Signature	Date
	Chairperson		
	QA Coordinator		
	Program Director		
	Dean / Institutional Representative		

** Any available templates will be considered; however, when the program wants to start with accreditation, they should utilize these templates

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Template 1.1D: End Program Learning Outcomes (EPLO) / Course Mapping Matrix

This Template provides evidence that each course in the program contributes to achieving the program's overall learning outcomes.

1. Purpose

To demonstrate how **End Program Learning Outcomes (EPLOs)** are addressed across all courses in the curriculum. This matrix ensures that every EPLO and competency is adequately covered, assessed, and aligned with each course.

2. Instructions for Use

1. List all **End Program Learning Outcomes (EPLOs)** in the first row.
2. List all **courses** in the first column.
3. Indicate the level of contribution of each course to each EPLO, showing the level of achievement, and provide the name and description of each level (Please see Table 4)

2. EPLO–Course Mapping Table

Course Code / Title	EPLO 1	PELO 2	EPLO 3	EPLO 4	EPLO 5	EPLO 6	EPLO 7	Remarks / Notes
Fundamentals of Nursing								
Anatomy & Physiology								
Adult Health Nursing								
Mental Health Nursing								
Community Health Nursing								
Nursing Research & Evidence-Based Practice								
Leadership & Management								

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

4. Course Syllabi Alignment Table

Course Code / Title	End Program Learning Outcomes (EPLOs) Addressed	Competencies Addressed	Competency level	Assessment Methods	Syllabus Reference / Evidence	Notes / Remarks
Fundamentals of Nursing	EPLO1, EPLO4			OSCE, Practical exams, Quizzes	Syllabus approved 01/2025, Attachment A	Introductory course; strong clinical lab component
Anatomy & Physiology	EPLO2			Midterm, Final exam, Lab exercises	Syllabus approved 02/2025, Attachment B	Reinforces foundational sciences
Adult Health Nursing	EPLO1, EPLO3, EPLO4			Clinical evaluation, Case studies	Syllabus approved 03/2025, Attachment C	Major clinical course
Mental Health Nursing	EPLO3, EPLO4			Clinical evaluation, Simulation	Syllabus approved 03/2025, Attachment D	Simulation focuses for behavioral health
Nursing Research & EBP	EPLO3, EPLO6			Research projects, Assignments	Syllabus approved 04/2025, Attachment E	Capstone research integration
Leadership & Management	EPLO5, EPLO7			Leadership project, Clinical evaluation	Syllabus approved 05/2025, Attachment F	Integrates management and ethics

Competency Categories

- ❖ Safe & Effective Care Environment
- ❖ Health Promotion/prevention and Maintenance
- ❖ Physiological Integrity
- ❖ Psychosocial Integrity

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

❖ Global health, health technology and economics

*EXAMPLE OF ASSESSMENT METHOD(S)

- OSCE
- Practical exams, Quizzes
- Reflection journals
- Faculty evaluation
- Practical exams
- Clinical logs
- Peer evaluation
- Research assignments
- Case studies
- Leadership assessment
- Clinical evaluation
- Reflective journals
- Self-assessment
- Community project evaluation

**EXAMPLE OF EVIDENCE

- Clinical simulation
- Hospital rotations
- Supported by ethics modules
- Skills lab and clinical practice
- Team-based simulation scenarios
- Capstone research projects
- Management rotation in the hospital
- Portfolio review
- Community health practicum

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

5. Competency Levels Definition

Level	Description
Beginner/ Introduced	The learning outcome is explicitly introduced in this course; teaching and learning activities focus on basic concepts and skills with entry-level complexity.
Intermediate/ Reinforced	The learning outcome is explicitly developed or reinforced in this course; teaching and learning activities focus on enhancing and strengthening existing knowledge and skills, as well as expanding complexity.
Advanced/ Proficient	Students explicitly demonstrate graduation-level proficiency or mastery of the learning outcome in this course; teaching and learning activities focus on the use of content or skills at multiple levels of complexity.

4. Analysis / Summary

EPLO No.	Description EPLO	Courses Covering EPLO	Level of Coverage	Comments / Action Needed
EPLO 1	Demonstrate safe patient-centered care			Covered adequately; reinforce in clinical labs
EPLO 2	Apply knowledge of basic sciences			May need more integrated exercises
EPLO 3	Utilize evidence-based practice			Covered in research & clinical courses
EPLO 4	Communicate effectively with patients & team			Emphasis in simulation and clinical practice
EPLO 5	Promote ethical, legal, and professional practice			Reinforce in leadership courses

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

EPLO No.	Description EPLO	Courses Covering EPLO	Level of Coverage	Comments / Action Needed
EPLO 6	Engage in lifelong learning & professional development			Include more reflective assignments
EPLO 7	Lead and manage nursing teams			Adequate coverage

5. Signatures / Approval

Name	Position	Signature	Date
	Program Director / Dean		
	Curriculum Committee Chair		
	QA Coordinator		

6. Review and Approval Record

Date of Review	Reviewed by (Committee / Faculty)	Findings / Recommendations	Approved by	Next Review Date

6. Signatures

Name	Position	Signature	Date
	Program Director / Dean		
	Curriculum Committee Chair		
	QA Coordinator		
	Institutional Representative

Template 1.1E: Community Consultation Report

1. Purpose

To record **feedback, input, and recommendations from community stakeholders** (e.g., healthcare providers, NGOs, patients, alumni, and professional associations) regarding the nursing program, ensuring alignment with **program goals, EPLOs, and competencies**.

2. Consultation Details

Item	Information
Consultation Title / Event	
Date	
Time	
Venue / Platform	
Facilitator / Chairperson	
Attendees / Stakeholders	(List names, titles, affiliations)
Absentees (with apologies)	
Mode of Consultation	☐ Meeting ☐ Focus Group ☐ Survey ☐ Other: _____

3. Objectives of Consultation

1. Gather feedback on program mission, goals, and EPLOs.
2. Assess relevance of program competencies to current community and healthcare needs.
3. Identify gaps or areas for program improvement.
4. Strengthening partnerships between the program and community stakeholders.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

4. Summary of Feedback

Stakeholder / Organization	Feedback / Comments	Recommendations	Follow-up / Action Taken

5. Analysis of Findings

Theme / Area	Summary of Feedback	Program Response / Action Plan	Responsible Person / Unit	Timeline / Deadline
Relevance of Curriculum				
Clinical Training				
Community Engagement				
Professional Competencies				
Resources & Facilities				

6. Recommendations and Action Plan

Recommendation	Action to be Taken	Responsible Person / Committee	Target Completion Date	Evidence / Output

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

7. Review and Approval Record

Date of Review	Reviewed by (Committee / Faculty)	Findings / Notes	Approved by	Next Review Date

8. Signatures

Name	Position	Signature	Date
	Program Director / Dean		
	QA Coordinator		
	Community Liaison / Representative		

Template 1.1F: Stakeholder Feedback Summary Form

1. Stakeholder Information

Stakeholder Category	Name / Organization	Role / Position	Contact Info
☐ Student			
☐ Faculty			
☐ Alumni			
☐ Employer			
☐ Clinical Partner			
☐ Community Representative			
☐ Other: _____			

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

2. Feedback Collection Method

Method	Details / Date	Responsible Person
☐ Survey		
☐ Focus Group		
☐ Interview		
☐ Meeting / Workshop		
☐ Other: _____		

3. Feedback Summary Table

Domain / Area	Feedback / Comments	Program Strengths Identified	Areas for Improvement	Proposed Action / Follow-Up	Responsible Person / Unit	Timeline
Program Mission & Goals						
Curriculum & Course Content						
Teaching & Learning Methods						

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Clinical Training & Supervision						
Resources & Facilities						
Student Support & Advising						
Professional Competencies						
Community Engagement						

4. Overall Summary / Key Recommendations

(Provide a brief summary of recurring feedback themes and priority recommendations for program improvement.)

5. Review and Approval

Reviewed by (Committee / Faculty)	Position	Signature	Date

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Template 1.1 G: Action Plan Based on Community Input

1. Purpose

To document **actions planned and implemented** in response to feedback from **community stakeholders, clinical partners, and other relevant parties** in order to improve program quality, relevance, and alignment with professional standards. This report should be developed at least one time every 3 years or if needed (if the faculty will make any changes minor or major for the program plan, mission, vision or courses this template should be applied)

2. Summary of Community Input

Source of Input	Date	Feedback / Recommendation	Stakeholder Category

1. Action Plan Table

Community Feedback Recommendation	Proposed Action Intervention	Responsible Person / Unit	Resources Required	Timeline Deadline	Expected Outcome / Indicator	Status

Template 1.2 A: Nursing Program Organizational Chart

1. Organizational Chart Diagram

(Insert visual chart here)

2. Roles and Responsibilities Matrix

Role / Position	Main Responsibilities	Reporting Line	Decision-Making Authority	Appendix / Evidence Reference
Example: Program Director / Head of Nursing Program	Overall program management, curriculum oversight, faculty supervision, resource allocation	Dean / Faculty	Approves curriculum changes, faculty recruitment, and budgeting	Example of evidence: job description
QA / Accreditation Coordinator	Monitor program quality, prepare accreditation reports, ensure compliance	Program Director	Reports on QA outcomes and recommendations	Example: workflow evidence of applying the role and responsibilities
Clinical Coordinators	Supervise clinical placements, ensure alignment with learning outcomes, liaise with clinical sites	Program Director	Approve clinical assignments and evaluations	
Faculty Members / Course Coordinators	Deliver courses, assess student performance, develop course materials	Program Director / Committees	Course content decisions, grading within policy	
Student Representatives	Participate in governance activities, provide feedback	Program Director / Committees	Advisory only	

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Role / Position	Main Responsibilities	Reporting Line	Decision-Making Authority	Appendix / Evidence Reference
Community / Clinical Advisory Stakeholders	Provide input on program relevance, competencies, and community needs	Program Director / QA Committee	Advisory only	
Administrative Staff	Support program operations, documentation, and communication	Program Director	Operational decisions	

2. Review and Approval Record

Date of Review	Reviewed by (Committee / Faculty)	Findings / Notes	Approved by	Next Review Date

3. Signatures

Name	Position	Signature	Date
	Program Director / Dean		
	QA Coordinator		
	Institutional Representative

2. Agenda Items

Item No.	Agenda Topic	Presenter / Lead	Discussion Summary	Decisions / Action Points
1	Review of Program Mission, Goals & EPLOs	Program Director		
2	Curriculum Updates & Course Alignment	Curriculum Committee Chair		
3	Clinical Training & Placement Feedback	Clinical Coordinator		
4	Resources & Infrastructure	QA / Admin Staff		
5	Stakeholder Feedback & Recommendations	Stakeholders		
6	Action Plan Follow-Up	QA Committee		
7	Other Business	Chairperson		

3. Key Decisions / Action Points

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Action Item	Responsible Person / Committee	Deadline / Timeline	Follow-Up / Evidence

4. Meeting Summary / Observations

(Provide a brief narrative of meeting outcomes, agreements, and next steps.)

5. Review and Approval Record

Date of Review	Reviewed by (Committee / Faculty)	Findings / Notes	Approved by	Next Review Date

6. Signatures

Name	Position	Signature	Date
	Program Director / Dean		
	QA Coordinator		
	Committee Chairperson		

- Attach **supporting materials** such as agenda, presentation slides, attendance sheets, and handouts.

Template 1.2 D: Advisory Feedback Action Plan

1. Purpose

To record **planned and implemented actions** in response to **advisory feedback**, ensuring that the nursing program meets community needs, aligns with professional standards, and continuously improves program quality. This Template documents how **feedback from the advisory council** is translated into **specific actions and improvements** within the nursing program.

1. Summary of Community Feedback

Source / Advisory council	Date of Feedback	Feedback / Recommendation	Category

2. Action Plan Table

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Community Feedback Recommendation	Proposed Action Intervention	Responsible Person / Unit	Resources Required	Timeline Deadline	Expected Outcome / Indicator	Status

3. Monitoring and Evaluation

Action Item	Monitoring Method	Responsible Person / Committee	Frequency	Evidence / Outcome

4. Review and Approval Record

Date of Review	Reviewed by (Committee / Faculty)	Findings / Notes	Approved by	Next Review Date

٥. Signatures

Name	Position	Signature	Date

- Attach **supporting evidence** such as consultation reports, survey results, and meeting minutes.

Template 1.2E: Dean's Annual Performance Evaluation Report

1. Purpose

To evaluate the **annual performance of the nursing program dean** in alignment with the institution's objectives, regulatory requirements, and program accreditation standards.

2. Evaluation Criteria and Key Performance Indicators (KPIs)

Evaluation Area	Performance Indicators (KPIs)	Rating Scale (1–5)	Comments / Evidence
Leadership & Governance	Effective leadership, decision-making, committee oversight, communication	1=Poor, 5=Excellent	
Curriculum & Academic Oversight	Program curriculum development, EPLO achievement, course alignment	1=Poor, 5=Excellent	

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Evaluation Area	Performance Indicators (KPIs)	Rating Scale (1–5)	Comments / Evidence
Faculty Management	Faculty recruitment, development, mentoring, evaluation	1=Poor, 5=Excellent	
Clinical & Community Partnerships	Clinical site agreements, supervision quality, stakeholder engagement	1=Poor, 5=Excellent	
Quality Assurance & Accreditation	Compliance with standards, annual QA reports, accreditation readiness	1=Poor, 5=Excellent	
Resource Management	Budget planning, allocation, and sustainability	1=Poor, 5=Excellent	
Research & Professional Development	Research output, participation in conferences, continuous professional development	1=Poor, 5=Excellent	
Student Support & Satisfaction	Student advisement, problem-solving, program responsiveness	1=Poor, 5=Excellent	

Overall Performance Rating: _____ / 5

3. Summary of Achievements

(Provide a brief narrative of the dean's key accomplishments, improvements, and contributions during the evaluation period.)

4. Areas for Improvement / Recommendations

(Provide recommendations for professional growth, program improvement, and leadership development.)

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

5. Evaluation Committee / Reviewers

Name	Position / Role	Signature	Date
	Dean / Program Director		
	QA / Accreditation Coordinator		
	Faculty / Institutional Reviewer		

- Faculty can use any available survey results according to their policies and utilize the above-suggested template

Template 1.3 A: Student Committee Membership List.

1. Purpose

To document **student representation in program committees**, showing active participation in governance, decision-making, and program improvement.

2. Student Committee Members

Name	Student ID / Year	Committee / Role	Term Start	Term End	Email / Contact Info
		Chairperson Representative

		Member			
		Member			
		Member			
		Member			
		Member			

3. Committee Objectives / Functions

1. Represent student interests in **curriculum development and evaluation**.
2. Provide **feedback on academic and clinical experiences**.
3. Participate in **quality improvement initiatives**.
4. Serve as a **liaison between students and faculty/administration**.

4. Review and Approval Record

Date of Review	Reviewed by (Committee / Faculty)	Findings / Notes	Approved by	Next Review Date

5. Signatures

Name	Position	Signature	Date
	Program Director / Dean		

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Name	Position	Signature	Date
	QA Coordinator		
	Committee Chairperson		

- Attach **committee meeting minutes and attendance records** as supporting evidence

Template 1.3 B: Faculty Governance Feedback Survey

1. Purpose

To gather **faculty perspectives on their involvement in governance**, participation in committees, decision-making, and the effectiveness of faculty representation in program management and quality assurance.

2. Respondent Information

الدليل الإرشادي لمعايير الاعتماد الخاص ببرامج التمريض

Item	Details
Name (Optional)	
Position / Title	
Department / Program	
Committee(s) Participated In	

3. Faculty Governance Participation Survey

Please rate the following statements on a scale of 1–5:

(1 = Strongly Disagree, 5 = Strongly Agree)

Statement	Rating (1–5)	Comments / Suggestions
I am aware of the governance structures within the nursing program.		
I have had the opportunity to participate in program committees or decision-making processes.		
My opinions and feedback are valued and considered in decisions.		
Participation in governance has enhanced my professional development and understanding of the program.		
Communication regarding meetings and decisions is clear and timely.		
Overall, I am satisfied with my involvement in faculty governance.		

4. Open Feedback

Please provide any additional comments, suggestions, or recommendations regarding faculty participation in governance:

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

5. Survey Review and Follow-Up

Reviewed by	Position / Committee	Date	Action / Notes
	QA Coordinator / Program Director		
	Committee Chairperson		

- Collect and analyze **survey results annually** to guide program improvement.
- Attach **summary reports** and **action plans** resulting from survey findings from any template in the faculty or utilize above survey.

Standard 2: Institutional Support and Resources

Template 2.1A: Clinical Site Mapping Form

1. Purpose

To document and map each clinical training site to the relevant **courses, clinical learning objectives, and End program learning outcomes (EPLOs)** supports, ensuring that students receive diverse, appropriate, and outcome-aligned clinical experiences.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

2. Clinical Site Information

Clinical Site Name	Type of Facility (<i>Hospital, PHC, .., etc.</i>)	Specialty Area(s)	Location / Governorate	Affiliation Agreement Valid Until

5. Course–Site Mapping

Course Code & Title	Course Type (<i>Adult, Maternal, Pediatric, etc.</i>)	Clinical Site(s) Used	Expected Hours / Week

6. Site Learning Opportunities and Population Served

Clinical Site Name	Learning Opportunities Provided	Patient Population Served	Average Student–Preceptor Ratio	Supervision Provided by (<i>Title/Role</i>)

7. Site Evaluation Summary

Criteria	Meets Requirement (Yes/No)	Comments / Evidence
Sites align with CLOs and EPLOs		
Provides sufficient case variety and exposure		
Provides adequate supervision and safety measures		
Facilities and resources are appropriate for student learning		
Feedback from students and preceptors is positive		

6. Summary of Findings

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Overall Assessment of Clinical Site Suitability:

☐ Excellent ☐ Satisfactory ☐ Needs Improvement ☐ Unsuitable

Reviewer Name & Title: _____

Date of Review: _____

Signature: _____

7. Recommendations and Follow-Up Actions

Identified Gap / Issue	Proposed Action	Responsible Person	Timeline	Follow-up Status

Documentation Notes

- Attach supporting documents:
 - Clinical site affiliation agreements
 - Site evaluation reports
 - Clinical rotation schedule
- Update **annually or per semester** to reflect site or curriculum changes.

Template 2.1B: Clinical Site Evaluation Checklist

1. Purpose

الدليل الإرشادي لمعايير الاعتماد الخاص ببرامج التمريض

To systematically assess the adequacy and quality of the clinical site in supporting nursing students' clinical learning experiences, ensuring compliance with End program learning outcomes (EPLOs) and safety standards. This evaluation should be surveyed by students and clinical instructors, Preceptors, and clinical coordinators

2. Evaluation Criteria

Evaluation Domain	Criteria	Yes	No	Comments / Evidence
A. Affiliation & Administration	Valid and current memorandum of understanding (MOU) with the institution	☐	☐	
	Clinical site provides access to required units/specialties	☐	☐	
	Site administration supports student learning	☐	☐	
B. Learning Environment	Adequate space for student activities (nursing stations, meeting rooms)	☐	☐	
	Sufficient patient flow to meet learning objectives	☐	☐	
	A variety of cases supports course outcomes	☐	☐	
	Appropriate student–preceptor ratio	☐	☐	
C. Equipment and Resources	Availability of essential nursing equipment and supplies	☐	☐	
	Access to electronic health records or documentation systems	☐	☐	
	Availability of teaching aids (manuals, charts, instruments)	☐	☐	
D. Supervision and Staff Support	Qualified clinical preceptors are assigned	☐	☐	
	Preceptors receive orientation/training	☐	☐	
	Nursing staff are cooperative and supportive of students	☐	☐	
E. Safety and Accessibility	Site meets occupational safety and infection control standards	☐	☐	
	Emergency and safety procedures are clearly communicated	☐	☐	
	Facility is physically accessible to students	☐	☐	
F. Feedback and Evaluation	Regular feedback mechanisms exist between site and faculty	☐	☐	
	Student evaluations of site are reviewed each term	☐	☐	
	Site improvements are documented and followed up	☐	☐	

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Scoring Method: Each criterion is scored as follows: Response Yes/ Score1 point, Response No/ Score 0 point
Number of Criteria= 19, Maximum Score=19 points.

3. Overall Site Rating Scale

Total Score	Percentage	Rating	Decision
17–19	90–100%	Excellent	Approved without conditions
14–16	75–89%	Very Good	Approved with minor recommendations
11–13	60–74%	Satisfactory	Conditional approval with improvement plan
≤10	<60%	Unsatisfactory	Not approved

4. Summary of Findings

Overall Evaluation of Site:
☐ Excellent ☐ Very Good ☐ Satisfactory ☐ Unsatisfactory
Key Strengths:

Areas for Improvement:

5. Recommendations & Action Plan

Identified Issue	Recommended Action	Responsible Person	Deadline	Follow-up Status

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

6. Approval & Review

Evaluator Name / Signature	Date	Program Director Approval	Date

Documentation Notes

- The faculty can utilize any surveys and reports available according to their policies
- To be completed **annually** or **before renewing affiliation**.
- Attach photos, MOU copies, and feedback summaries as evidence

Template 2.1C: Laboratory Equipment Inventory Form

Institution: _____

Nursing Program: _____

Lab Type: ☐ Skills Lab ☐ Simulation Lab ☐ Maternity Lab ☐ Pediatric Lab ☐ Other _____

Prepared by: _____

Position / Title: _____

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Date: _____

Academic Year: _____

1. Purpose

To document and monitor the list, quantity, condition, and adequacy of laboratory and simulation equipment supporting nursing education and to ensure continuous improvement of lab resources. This form is used to **track and verify the availability, condition, and adequacy of equipment** in nursing skills and simulation laboratories — ensuring they meet the learning objectives and accreditation requirements

2. Equipment Inventory Table

Equipment Model Name	/Category Type	/Quantity Available	Required Quantity	Condition (Good / Needs Repair / Replace)	/Location / Lab Room	Last Maintenance Date	Remarks

3. Safety and Maintenance

Safety / Maintenance Item	Yes / No	Comments / Notes
Fire extinguisher and first-aid kit available	☐	
Equipment maintenance log updated regularly	☐	
Electrical and simulation equipment checked for safety	☐	

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Safety / Maintenance Item	Yes / No	Comments / Notes
Storage and waste disposal areas meet safety standards	☐	
Lab technician / supervisor assigned	☐	

5. Summary of Findings

Overall Condition of Laboratory Equipment:

☐ Excellent ☐ Satisfactory ☐ Needs Maintenance ☐ Needs Replacement

Key Issues Identified:

Immediate Actions Required:

6. Recommendations & Action Plan

Identified Gap / Issue	Recommended Action	Responsible Person	Timeline	Follow-up Status

7. Review and Approval

Lab Supervisor Name / Signature	Date	Program Director / QA Officer Approval	Date

Documentation Notes

- Provide any evidence of maintenance and equipment requests
- Review and update **each semester** or **before accreditation visits**.
- Attach supporting documents:
 - Photos of lab setup
 - Maintenance certificates

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

- Calibration or safety check records

Template 2.1D: Clinical Site Agreement Template

1. Purpose

This agreement establishes a formal affiliation to provide **clinical training and educational experiences** for nursing students, ensuring:

- Safe and structured learning environment
- Alignment with Course Learning Outcomes (CLOs) and End Program Learning Outcomes (EPLOs)
- Adequate supervision and evaluation of students

2. Clinical Site Agreement

Organization names	Agreement details	Dates and duration	Responsibilities & compliance

3. Signatures

Party	Name / Title	Signature	Date
Nursing Program			
Clinical Site			

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Documentation Notes

- Review and renew **every 1–3 years** or as required by accreditation.
- Attach copies of **site evaluations and student feedback** to maintain compliance evidence.

Template 2.1E: Clinical Course Coordinator Evaluation Form

1. Purpose

To systematically evaluate the **effectiveness, guidance, and support** provided by clinical course coordinator, ensuring students achieve their clinical learning objectives and gain competency in professional practice.

2. Evaluation Criteria

Please rate the following aspects of the Clinical course coordinator using the scale:

(1 = Poor, 2 = Fair, 3 = Good, 4 = Very Good, 5 = Excellent)

Domain	Criteria	Rating (1–5)	Comments / Evidence
A. Professional Competence	Supervisor demonstrates expertise and up-to-date knowledge in clinical practice		
	Demonstrate clinical reasoning and guide the student appropriately		
B. Communication and Guidance	Provides clear instructions and expectations		
	Encourages questions and discussion		
	Offers constructive feedback on time		
C. Supervision & Support	Provides adequate supervision throughout the clinical experience		
	Ensures student safety and adherence to protocols		
	Supports the development of clinical skills and professional behavior		
D. Assessment & Evaluation	Conducts fair and objective evaluation of student performance		
	Aligns feedback with course objectives and EPLOs		
E. Professionalism	Demonstrates respect, ethical behavior, and role modeling		
	Promotes a positive learning environment		

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

3. Overall Evaluation

Overall Effectiveness of Clinical Course Coordinator:

☐ Excellent ☐ Very Good ☐ Good ☐ Fair ☐ Poor

Strengths:

Areas for Improvement:

4. Recommendations / Action Plan

Issue / Gap Identified	Recommended Action	Responsible Person	Timeline / Follow-Up

5. Signatures

Evaluator Name / Signature	Date	Clinical Site Supervisor / Signature	Date

Documentation Notes

- The faculty can utilize this form or provide any available surveys and results according to their policies
- To be completed for each student during each clinical rotation.
- Collect and summarize **at the end of the semester** for program evaluation and accreditation purposes.
- Attach **supporting documentation**: student logs, clinical rotation reports, and preceptor feedback.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Template 2.1F: Facility Safety Inspection /Accessibility Checklist

Institution: _____

Nursing Program: _____

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Facility Name / Type: ☐ Skills Lab ☐ Simulation Lab ☐ Classroom ☐ Clinical Site ☐ Other: _____

Location: _____

Inspection Date: _____

Inspector Name & Title: _____

Academic Year: _____

- 1. Safety Inspection Checklist:** to systematically evaluate the **safety, accessibility, and compliance** of nursing program facilities, ensuring a secure learning environment for students, faculty, and staff.

Domain	Criteria	Yes	No	Comments / Action Required
A. General Facility Safety	Emergency exits clearly marked and accessible	☐	☐	
	Fire extinguishers are available and inspected	☐	☐	
	First aid kits available and stocked	☐	☐	
	Facility is clean, organized, and clutter-free	☐	☐	
B. Electrical & Equipment Safety	Electrical outlets and cords are in good condition	☐	☐	
	Simulation and lab equipment inspected regularly	☐	☐	
	Equipment manuals and safety instructions available	☐	☐	
C. Infection Control & Hygiene	Handwashing stations / sanitizers available	☐	☐	
	Waste disposal (biohazard, sharps) properly managed	☐	☐	
	Cleaning schedule and logs maintained	☐	☐	
D. Accessibility & Ergonomics	Facility accessible to students with disabilities	☐	☐	
	Furniture and workstations are safe and ergonomic	☐	☐	
	Adequate lighting and ventilation	☐	☐	
E. Emergency Preparedness	Evacuation plan posted and known by staff/students	☐	☐	
	Emergency contact numbers displayed	☐	☐	
	Safety drills conducted periodically	☐	☐	

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Overall Facility Safety Status Evaluation:

☐ Excellent ☐ Satisfactory ☐ Needs Improvement ☐ Unsuitable

Key Safety Issues Identified:

Recommended Actions / Follow-Up:

2. **Accessibility Assessment Checklist:** to systematically evaluate the **physical and functional accessibility** of facilities, ensuring that all students, including those with disabilities, can safely and effectively participate in learning activities.

Domain	Criteria	Yes	No	Comments / Action Required
A. Physical Access	Entrances and exits accessible to individuals with disabilities	☐	☐	
	Doorways and hallways wide enough for wheelchair access	☐	☐	
	Ramps and elevators available and functional	☐	☐	
	Restrooms are accessible to all users	☐	☐	
B. Learning Environment	Workstations, desks, and lab stations adjustable for accessibility	☐	☐	
	Clear signage for navigation and emergency exits	☐	☐	
	Lighting and acoustics suitable for students with sensory needs	☐	☐	
C. Technology & Equipment	Computers and e-learning tools are accessible to all students	☐	☐	
	Assistive devices available (if required)	☐	☐	
	Adaptive lab/simulation equipment provided	☐	☐	
D. Emergency Preparedness	Emergency exits and procedures are accessible for all	☐	☐	
	Staff trained to assist students with disabilities during emergencies	☐	☐	

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Overall Facility Accessibility Evaluation:

☐ Excellent ☐ Satisfactory ☐ Needs Improvement ☐ Unsuitable

Key Accessibility Strengths:

Areas Needing Improvement:

3. Action Plan / Recommendations

Identified Issue	Recommended Action	Responsible Person	Timeline / Follow-Up

4. Signatures

Inspector Name / Signature	Date	Facility Manager / Supervisor Signature	Date

Documentation Notes

- To be completed **annually or before each semester**.
- Attach **supporting evidence**: photos, maintenance reports, inspection certificates.

Template 2.1G: Clinical Rotation Schedule Template

Institution: _____

Nursing Program: _____

Academic Year / Semester: _____

Coordinator / Contact Person: _____

Date Prepared: _____

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

1. Purpose

To provide a structured schedule for **clinical placements**, ensuring that all students gain required experience, supervision, and exposure to diverse patient populations.

2. Clinical Rotation Schedule Table

Student Name	Student ID	Clinical Site / Department	Preceptor Name	Rotation Start Date	Rotation End Date	Week/ Hours	Notes / Special Requirements

3. Summary of Rotation Coverage

Clinical Site	Number of Students Assigned	Departments / Specialties Covered	Preceptor Assigned	Comments / Notes

4. Supervisor / Faculty Assignment

Preceptor / Faculty Name	Assigned Students	Contact Info	Special Instructions

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

5. Approval and Signatures

Prepared by (Clinical Coordinator)	Signature	Date

Program Director / Dean Approval	Signature	Date

Documentation Notes

- Update **before each semester or clinical term**.
- Attach **student assignments, site confirmations, preceptor agreements, and special accommodations** if applicable.
- Ensure rotation schedule aligns with **accreditation requirements for hours, exposure, and diversity of clinical experiences**.

Template 2.1H: Clinical Placement Evaluation Report

Institution: _____
 Nursing Program: _____
 Clinical Site Name: _____
 Department / Specialty Area: _____

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Academic Year / Semester: _____

Evaluator Name & Title: _____

Date of Evaluation: _____

1. Purpose

To systematically evaluate the **quality, effectiveness, and alignment of clinical placements** with course and program objectives, ensuring continuous improvement in student learning and safety.

2. Clinical Placement Evaluation Criteria

Please rate the following aspects using the scale:
1 = Poor 2 = Fair 3 = Good 4 = Very Good 5 = Excellent

Domain	Criteria	Rating (1–5)	Comments / Evidence
A. Site Suitability	Adequate patient population for student learning		
	Facilities, equipment, and resources sufficient		
	Safety and accessibility of site		
B. Supervision & Guidance	Qualified preceptors available		
	Students receive regular feedback and support		
	Supervision aligns with learning objectives		
C. Learning Experience	Clinical experiences aligned with course objectives		
	Students exposed to a variety of cases		
	Opportunities to apply theory to practice		
D. Communication & Collaboration	Site staff cooperate with program faculty		
	Open communication between site, preceptors, and program		
E. Overall Satisfaction	Site meets expectations for quality clinical learning		

3. Summary of Findings

Overall Placement Effectiveness:

☐ Excellent ☐ Very Good ☐ Good ☐ Fair ☐ Poor

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Strengths Identified:

Areas for Improvement:

4. Action / Recommendations

Identified Issue / Gap	Recommended Action	Responsible Person	Timeline / Follow-Up

5. Signatures

Evaluator Name / Signature	Date	Clinical Site Supervisor / Signature	Date

Documentation Notes

- To be completed **after each clinical rotation for every site.**
- Attach supporting documents:
 - Student feedback forms
 - Preceptor evaluations
 - Clinical rotation logs
- Summarize findings **at the end of the semester** to guide program improvements and accreditation reporting.

Template 2.2A: Annual Budget Summary Form

1. Purpose

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

To provide a **clear summary of allocated and spent resources** for teaching, research, clinical training, and administrative support, enabling effective financial planning, accountability, and program sustainability.

2. Budget Summary Table

Category	Allocated Budget (JD)	Amount Spent (JD)	Variance (Allocated - Spent)	Percentage Used (%)	Comments / Notes
Staffing / Salaries					
Faculty Development / Training					
Teaching Materials / Resources					
Laboratory & Simulation Equipment					
Clinical Training Support					
Research / Grants					
Administrative / Office Supplies					
IT / E-Learning / Technology					
Other (Specify)					
Total					

3. Summary Analysis

Key Observations:

Budget Adequacy & Gaps:

Recommendations for Next Fiscal Year:

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

4. Approval & Signatures

Prepared by (Finance / Program Officer)	Signature	Date

Program Director / Dean Approval	Signature	Date

Documentation Notes

- File under:
- Review and update **annually**, ideally before fiscal year-end.
- Attach supporting documents:
 - Invoices
 - Faculty funding requests
 - Purchase orders
 - Grant agreements
 - Payroll summaries
- Use for **budget audits, accreditation submissions, and financial planning**.
- The faculty can utilize any available forms or templates according to their policies

Template 2.3A: Library Resource Inventory Form

1. Purpose

To maintain a complete and current record of **nursing and health sciences library resources**, ensuring access to **relevant, updated, and evidence-based materials** for students and faculty.

هيئة الاعتماد وضمان الجودة
THE ACCREDITATION & QUALITY ASSURANCE COMMISSION

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

2. Library Resources Inventory

Resource Category	Title Name	Author / Publisher	Edition Year	Format (Print / eBook / Database)	Quantity Access	Location / Access Link	Status (Available / Outdated / Missing)
Textbook							
Reference Book

- Attach supporting evidence such as course syllabi, EPLO mapping, and usage reports.
- Submit recommendations **before budget planning cycles** to ensure timely acquisition.

Template 2.4A: Computer Lab Inventory Form

Institution: _____

Nursing Program: _____

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Lab Name / Location: _____

Academic Year / Semester: _____

Prepared by (Lab Coordinator / IT Officer): _____

Date Prepared: _____

1. Purpose

This form documents the **inventory of computer lab equipment and peripherals**, ensuring that technology resources support teaching, learning, and clinical documentation systems as required by the nursing program.

2. Lab Equipment Inventory

#	Item Description	Brand Model	Serial Number	Quantity	Year Purchased	Condition (New / Good / Fair / Poor)	Location / Lab Station	Remarks
1	Desktop Computer							
2	Laptop							
3	Projector							
4	Printer / Scanner							
5	Network Switch / Router							
6	Simulation Software / High-Fidelity Simulation Equipment							
7	Interactive Whiteboard / Smart Board							
8	Other Peripherals (Keyboard, Mouse, Headset, etc.)							

3. Maintenance & Upgrade Schedule

Item	Last Maintenance Date	Next Scheduled Maintenance	Responsible Person / IT Staff	Remarks / Issues

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

4. Software Inventory

Software Name	Version	License Type (Perpetual / Subscription)	Number of Licenses	Expiry Date	Installed On (Lab Station / Computer)	Remarks

6. Notes

- Update **annually or after major equipment changes**.
- Attach supporting documents: purchase invoices, warranty certificates, and maintenance logs.

Internet & Network Connectivity Report

1. Purpose

This report documents the **status, performance, and reliability** of the internet and network infrastructure supporting the nursing program. It ensures that e-learning platforms, online assessments, and clinical documentation systems function effectively.

2. Network Overview

Component	Description / Model	Quantity	Location	Installed / Operational Since	Current Status	Remarks
Router						
Switch						
Wireless Access Point						
Firewall / Security Appliance						
Server / Database Host						
VPN / Remote Access System						
Other Network Equipment						

3. Internet Connectivity Status

الدليل الإرشادي لمعايير الاعتماد الخاص ببرامج التمريض

Metric	Target / Standard	Current Measurement	Observation / Remarks
Bandwidth (Download / Upload)	Minimum required per student/faculty		
Latency / Ping	≤ 50 MS		
Uptime (%)	≥ 98%		
Downtime (hours)	≤ 10 per year		
Connection Speed Consistency	± 10% variation		

4. User Access Statistics

User Group	Number of Users	Peak Usage Hours	Average Session Duration	Reported Connectivity Issues	Remarks
Students					
Faculty					
Administrative Staff					

5. Reported Connectivity Issues & Resolutions

Date	Issue Description	Reported By	Action Taken	Resolved (Yes / No)	Responsible Person / IT Staff

6. Network Performance Improvements / Upgrades

Proposed Upgrade / Improvement	Justification	Estimated Cost	Timeline	Responsible Unit	Status

7. Notes

- Update **quarterly or after major network upgrades**.
- Attach supporting documents: speed tests, network diagrams, incident logs, and maintenance reports.

الدليل الإرشادي لمعايير الاعتماد الخاص ببرامج التمريض

Digital Tools Access Log

1. Purpose

This form records **faculty and student access to digital tools**, including learning management systems (LMS), simulation software, online assessment platforms, and clinical documentation systems, to monitor usage, accessibility, and effectiveness.

2. Digital Tools Overview

Tool / Software Name	Type (LMS / Simulation Assessment / Other)	Platform Vendor	Access Method (On-Campus / Remote)	Number of Licenses / Seats	Subscription Validity / License Expiry	Remarks

3. Access Log

Date	User Group	Number of Users Logged In	Total Sessions	Average Session Duration (min)	Tool Used	Remarks / Issues
	☐ Students ☐ Faculty					
	☐ Students ☐ Faculty					
	☐ Students ☐ Faculty					

4. Monthly Usage Summary

Month	Total Users (Students)	Total Users (Faculty)	Total Sessions	Average Session Duration (min)	Most Used Tool	Remarks / Observations
January						
February						
March						
April						
May						
June						

الدليل الإرشادي لمعايير الاعتماد الخاص ببرامج التمريض

Month	Total Users (Students)	Total Users (Faculty)	Total Sessions	Average Session Duration (min)	Most Used Tool	Remarks / Observations
July						
August						
September						
October						
November						
December						

5. Access Issues & Resolutions

Date	Issue Description	Reported By	Action Taken	Resolved (Yes / No)	Responsible Person / Unit

6. User Feedback Summary

Feedback Source	Main Comments / Issues	Action Taken / Planned	Follow-Up Date	Responsible Person / Unit
Student Survey				
Faculty Feedback				
IT Support Logs				

7. Performance Indicators (KPIs)

KPI	Target	Actual Performance	Status (Met / Not Met)	Action Required
% of students able to access tools	≥ 90%			
% of faculty able to access tools	≥ 95%			
% of uptime for digital tools	≥ 98%			
Average session duration aligns with intended use	≥ 30 min			
% of issues resolved within 48 hours	≥ 85%			

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

8. Recommendations & Improvement Plan

Area for Improvement	Planned Action	Timeline	Responsible Unit	Status / Notes

9. Notes

- Update monthly or quarterly depending on usage monitoring capability.
- Attach supporting reports from LMS, simulation software, or assessment platforms.

10. Verification and Approval

Prepared by (IT Officer / Lab Coordinator)	Signature	Date

Reviewed by (Program Director / Dean)	Signature	Date

Template 2.4B: Simulation Session Schedule and Evaluation Form

Institution: _____

Nursing Program: _____

Simulation Lab / Location: _____

Academic Year / Semester: _____

الدليل الإرشادي لمعايير الاعتماد الخاص ببرامج التمريض

Prepared by (Simulation Lab Coordinator / Faculty): _____

Date Prepared: _____

1. Purpose

This form schedules **simulation sessions** and provides a structured **evaluation of simulation effectiveness**, ensuring alignment with course learning outcomes (CLOs) and End program learning outcomes (EPLOs).

2. Simulation Session Schedule

Date	Time	Course Module	Instructor Facilitator	Simulation Equipment / Tool	Learning Objectives / Competencies Addressed	Student Number	Group	Lab Room	Remarks

3. Student Evaluation of Simulation

Student Name / ID	Participation (Yes / No)	Pre-Briefing Preparedness (1-5)	Clinical Skills Performance (1-5)	Decision-Making & Critical Thinking (1-5)	Communication & Teamwork (1-5)	Overall Satisfaction (1-5)	Instructor Comments

Rating Scale: 1 = Poor, 2 = Fair, 3 = Satisfactory, 4 = Good, 5 = Excellent

4. Faculty / Facilitator Evaluation of Session

THE ACCREDITATION & QUALITY ASSURANCE COMMISSION

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Steps	Plan
Objectives	e.g., Enhance active learning in clinical teaching
Planned Activities	e.g. Workshops, conferences, online courses
Timeline	Specify semester/year
Responsible Office/Unit	e.g. Faculty Affairs, HRD, etc
Evaluation of Impact	e.g. Course evaluations, peer reviews

Template 3.1 F: Scholarly Involvement and Research Contribution Records

Faculty Name	Academic Rank	Area of Expertise	Research Project Title	Type (Individual / Collaborative)	Partner Institution(s)	Publications (Title / Journal / Date)	Publication Rate (per year)	Conference Presentations (Title / Venue / Date)	Grants / Funding (Amount / Source)	Remarks
Example: Dr. Maryam Omar	Associate Professor	Public Health Nursing	"Sustainability in Nursing Practice"	Collaborative	University of Jordan	"Sustainability Consciousness in Nursing," <i>J. of Nursing Research</i> , Jan 2025	2/year	"Teaching Sustainability," WHO Regional Conf., 2025	\$15,000 from MOH	Active mentor to junior faculty

Metrics that may be added:

- ✓ Total publications by department/faculty
- ✓ Average publication rate per faculty member
- ✓ Number of collaborative projects with external institutions
- ✓ Number of conference presentations

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

- ✓ Number of faculty involved in grant-funded research

Template 3.1 G: Faculty Workload Records

Faculty Name	Academic Rank	Teaching Load (Credits / Contact Hours)	Research Load	Administrative Duties	Community/Service Roles	Total Weekly Hours	Comments
Example: Dr. Hanan Khaled	Assistant Professor	12 credits / 9 contact hrs	20% of time	Department Committee Chair	Clinical Training Coordinator	42 hrs/week	Manageable load

Template 3.1 H: Clinical Instructor File

Instructor Name	Position / Title	Department / Program	Document Type****	Link to Document / Folder (SharePoint, Google Drive, etc.)	Date Verified	Verified By (Name / Signature)	Remarks
Ahmad	e.g., Clinical Instructor	Nursing Skills Lab	CV/licensure/appointment letter/	[Insert Link] for all documents	DD/MM/YYYY	HR / Dean	Current

Document types (should be hyperlinked):

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

- ✓ Curriculum Vitae (CV)
- ✓ Academic Degree Certificates
- ✓ JNC Certification
- ✓ Employment / Appointment Letter
- ✓ Evidence of ≥ 2 Years' Clinical Experience
- ✓ Current Valid Nursing License
- ✓ Continuing Education Records (≥ 10 hours)
- ✓ Role & Responsibility Descriptions (Job Description)

Template 3.1 I: Preceptors (per Semester)

Preceptor Name	Employment Type (Full-time / Part-time)	Semester / Year	CV on File (Yes/No + Link)	Educational & Experiential Qualifications (Summary)	Current Licensure (Number / Expiry)	Role Responsibilities & Document (Yes/No + Link)	Contract Copy on File (Yes/No + Link)	Date Verified	Verified By (Name / Signature)	Remarks / Status
Example: Dr. Ahmad Ali	Part-time	Fall 2025	[Link to CV]	MSN, 10 yrs clinical experience	JNC #123456 Exp. 12/2026	[Link to Role Doc]	[Contract Link]	10/09/2025	HR / Clinical Coordinator	Active

هيئة الاعتماد وضمان الجودة
THE ACCREDITATION & QUALITY ASSURANCE COMMISSION

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Template 3.1 J: Clinical Schedule - Students per Clinical Educator (per Semester)

Semester / Year	Program / Course	Training Setting (Hospital / Community / Lab)	Clinical Site / Unit Name	Clinical Educator Name	Educator Role (Full-Time / Part-Time / Preceptor)	Days & Hours of Clinical Rotation	Total Students Assigned	Ratio (Students : Educator)	Remarks / Notes
Example: Fall 2025	BSN – Adult Nursing	Hospital – Medical Ward	King Abdullah Hospital, Med Ward A	Dr. Maryam Omar	Full-Time Faculty	Sun & Tue 08:00–14:00	8	8:1	Meets standard
Example: Fall 2025	BSN – Pediatrics	Community Clinic	Queen Rania Community Health Center	Mr. Ahmad Ali	Part-Time Preceptor	Mon & Wed 08:00–13:00	6	6:1	—
		Lab							

Note: the following ratios are mandatory and should be clarified in the table:

- The faculty/clinical instructor: student ratio shall not be more than 1:8 for any clinical experiences.
- When clinical preceptors are utilized in a clinical setting, the ratio shall be 1:3 for the hospital settings (if they are supervising students during their work shifts) and 1:8 if they are totally free and not working that day,
- The ratio for PHC and community settings is 1:12
- The ratio in Labs is 1:20

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Standard 4: Curriculum Design, Assessment, and Evaluation

The Templates that are mentioned in this standard are guiding examples, and each school can use any available Templates, Guidelines, policies, frameworks that suffices the requirement of the standards .

Template 4.3 Example: EPLO–Competency Mapping Framework

EPLO	Core Competency Domain	Key Competencies (End-of-Program)
EPLO 1 – Apply the Nursing Process for Safe and Effective Care	Safe & Effective Care	Perform comprehensive assessments Develop and implement safe care plans Evaluate outcomes to reduce risk and enhance safety
EPLO 2 – Integrate Evidence-Based Practice and Clinical Reasoning	Clinical Reasoning & Evidence-Based Practice	Integrate scientific evidence Apply critical thinking in clinical decisions Use data to improve quality of care
EPLO 3 – Promote Physiological and Psychosocial Integrity	Physiological & Psychosocial Integrity	Deliver holistic care Address psychological and cultural needs Respond to changes in patient condition
EPLO4		
EPLO5		
EPLO6

12. Student Feedback Summary

Summary of student feedback:

Template 4.1. Regulatory Alignment and Curriculum Compliance Policy (Nursing Program)

1. Purpose

This policy establishes mandatory requirements to ensure that the Nursing Program curriculum, End Program Learning Outcomes (EPLOs), teaching and learning strategies, and assessment systems are fully aligned with national nursing regulatory and accreditation bodies, including the Jordanian Nursing Council (JNC), the Accreditation and Quality Assurance Commission for Higher Education Institutions (ACACH), and the National Qualifications Framework (NQF). This policy ensures regulatory compliance, academic quality, and professional competence of Nursing Program graduates.

2. Scope

This policy applies to all academic, clinical, and administrative components of the Nursing Program, including:

- End Program Learning Outcomes (EPLOs)
- Curriculum design, development, and revision
- Course Learning Outcomes (CLOs) and course syllabi
- Teaching, learning, and assessment practices
- Clinical education and training requirements
- Faculty roles and responsibilities
- Quality assurance, monitoring, and review processes

3. Regulatory Framework

The Nursing Program shall comply with all applicable national and institutional regulatory frameworks, including but not limited to:

- Jordanian Nursing Council (JNC): National nursing competency standards, scope of practice, and ethical guidelines
- ACACH: Accreditation and quality assurance standards for higher education programs
- National Qualifications Framework (NQF): Level descriptors for knowledge, skills, and competence

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

- Relevant national laws, bylaws, and healthcare regulations

4. Policy Statements

4.1 Regulatory Alignment

- 4.1.1 The Nursing Program shall maintain documented alignment between the program mission, End Program Learning Outcomes (EPLOs), and national nursing regulatory requirements.
- 4.1.2 All EPLOs shall be explicitly mapped to JNC competency domains, ACACH accreditation standards, and NQF level descriptors.
- 4.1.3 Alignment documentation and mapping matrices shall be formally approved, maintained, and periodically reviewed.

4.2 Curriculum Design and Approval

- 4.2.1 Curriculum design, development, and revision shall follow approved institutional policies and procedures.
- 4.2.2 All new, revised, or amended courses shall demonstrate compliance with approved EPLOs and regulatory requirements prior to implementation.
- 4.2.3 Curriculum modifications shall not be implemented without formal approval through institutional governance structures and, where applicable, external regulatory authorities.

4.3 Course and Assessment Compliance

- 4.3.1 Course Learning Outcomes (CLOs) shall be aligned with approved EPLOs and articulated using measurable and assessable learning verbs.
- 4.3.2 Assessment methods shall be valid, reliable, and sufficient to measure achievement of CLOs and EPLOs.
- 4.3.3 Clinical and practical assessments shall utilize standardized tools aligned with national nursing competency and scope of practice requirements.

4.4 Clinical Practice Alignment

- 4.4.1 Clinical education and training shall comply with JNC and ACACH requirements related to clinical hours, learning environments, supervision, and student–preceptor ratios.
- 4.4.2 Clinical training sites shall be formally approved and evaluated on a periodic basis.
- 4.4.3 Clinical performance evaluation tools shall reflect nationally recognized nursing competency indicators.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

4.5 Faculty Responsibilities

4.5.1 Faculty members shall ensure that course content, instructional strategies, and assessment methods comply with this policy and applicable regulatory requirements.

4.5.2 Faculty participation in curriculum mapping, review, and quality assurance activities is mandatory.

4.5.3 The institution shall provide ongoing professional development to support faculty compliance with regulatory and accreditation standards.

4.6 Monitoring and Continuous Review

4.6.1 The Nursing Program shall conduct periodic reviews to monitor curriculum compliance and regulatory alignment in accordance with institutional quality assurance procedures.

4.6.2 Feedback from students, graduates, employers, and clinical partners shall be systematically reviewed and used to inform curriculum improvement.

4.6.3 Any changes to national regulatory or accreditation requirements shall trigger immediate curriculum review and alignment actions.

5. Documentation and Evidence

The Nursing Program shall maintain complete and auditable documentation, including:

- EPLO–JNC–ACACH–NQF alignment matrices
- Approved curriculum plans and course syllabi
- Clinical affiliation agreements and evaluation reports
- Assessment tools, rubrics, and evaluation records
- Records and minutes of curriculum and compliance review meetings

6. Roles and Responsibilities

Role	Responsibility
Program Coordinator	Oversight of regulatory alignment and policy implementation
Curriculum Committee	Curriculum alignment, review, and approval

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Quality Assurance Unit	Monitoring, auditing, and compliance documentation
Faculty Members	Course-level compliance and delivery
Clinical Coordinator	Oversight of clinical education compliance

7. Policy Review Cycle

This policy should be reviewed at least once every three (3) years, or earlier if required due to changes in regulatory or accreditation standards.

8. Approval and Implementation

This policy shall become effective upon formal approval by the appropriate institutional authority and shall be implemented across all components of the Nursing Program.

- Approved by: _____
- Effective Date: _____
- Next Review Date: _____

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Template 4.2. Methodology for Developing the EPLO Competency Indicators Framework

(Alignment with National and Regulatory Standards)

The development of the End Program Learning Outcomes (EPLOs) and their associated competency indicators was guided by alignment with national nursing regulatory and accreditation requirements. Key reference frameworks included national nursing regulatory bodies (e.g., JNC, ACACH) and the National Qualifications Framework (NQF). These standards ensured that the EPLOs reflect required level descriptors, professional expectations, and scope of nursing practice.

(Benchmarking with International Competency Frameworks)

International nursing competency frameworks were reviewed to ensure global relevance and comparability. This benchmarking supported the integration of best practices related to patient safety, ethics, evidence-based practice, and lifelong learning.

(Definition of End Program Learning Outcomes (EPLOs))

A clearly defined set of End Program Learning Outcomes (EPLOs) was formulated to describe the expected graduate knowledge, skills, and professional attributes. Each EPLO was mapped to NQF learning domains and appropriately leveled.

(Structuring EPLOs Across Six Nursing Practice Areas)

The EPLOs were contextualized within six nursing practice areas: Adult Health, Maternal Health, Child Health, Psychiatric and Mental Health, Community Health, and Leadership and Management in Nursing.

(Development of Competency Indicators)

Specific, measurable competency indicators were developed for each EPLO to describe observable and assessable graduate performance, integrating knowledge, skills, critical thinking, and professional behavior. can use the dictionary of competencies attached in the Templates and JNC framework of competencies and indicators for RN.

(Stakeholder Engagement and Expert Review)

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

The framework development involved consultation with academic faculty, clinical experts, and regulatory stakeholders to ensure relevance and feasibility.

(Mapping and Validation)

EPLOs and competency indicators were mapped to regulatory requirements, NQF level descriptors, and course learning outcomes to ensure coherence and alignment.

(Continuous Quality Improvement)

The framework is reviewed regularly through quality assurance processes using feedback from students, graduates, employers, and accreditation outcomes.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Template 4.3. EPLO–Competency Mapping Framework Example

EPLO	Core Competency Domain	Key Competencies (End-of-Program)
EPLO 1 – Apply the Nursing Process for Safe and Effective Care	Safe & Effective Care	Perform comprehensive assessments Develop and implement safe care plans Evaluate outcomes to reduce risk and enhance safety
EPLO 2 – Integrate Evidence-Based Practice and Clinical Reasoning	Clinical Reasoning & Evidence-Based Practice	Integrate scientific evidence Apply critical thinking in clinical decisions Use data to improve quality of care
EPLO 3 – Promote Physiological and Psychosocial Integrity	Physiological & Psychosocial Integrity	Deliver holistic care Address psychological and cultural needs Respond to changes in patient condition
EPLO4		
EPLO5		
EPLO6		

EPLO 1 – Apply the Nursing Process for Safe and Effective Care

Demonstrate competence in assessment, diagnosis, planning, implementation, and evaluation of holistic, patient-centered nursing care that promotes safety, infection prevention, and risk reduction across the lifespan.

EPLO 2 – Integrate Evidence-Based Practice and Clinical Reasoning

Apply scientific knowledge, critical thinking, and current evidence to make sound clinical judgments, deliver high-quality interventions, and continuously improve patient outcomes.

EPLO 3 – Promote Physiological and Psychosocial Integrity

Provide comprehensive care addressing physical, psychological, emotional, and cultural needs while supporting adaptation, comfort, and overall well-being in diverse healthcare settings.

EPLO 4 – Foster Health Promotion and Disease Prevention

Design, implement, and evaluate health education and promotion strategies that empower individuals, families, and communities to achieve and sustain wellness across the lifespan.

EPLO 5 – Demonstrate Professionalism, Ethics, and Advocacy

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Exhibit ethical, legal, and professional accountability in all aspects of practice, advocate for patient rights, social justice, and equitable access to quality care.

Template 4.4. Matrix for Embedding Contemporary Concepts, AI, and Technology Across Courses

Contemporary Concept *	Adult Nursing	Maternal Health Nursing	Child Health Nursing	Psychiatric & Mental Health	Community Health Nursing	Leadership & Management	Other Courses (e.g., Research, Informatics)	Evidence Document Link
Artificial Intelligence	Nursing AI Ethics Application	AI-Driven Fetal Monitoring Simulation:				AI Tool Evaluation in Practice (medication dispensing system)		
social determinants	A nursing plan that addresses both clinical and social needs.	Action plan to improve equity in prenatal care access				advocacy-based nursing intervention plan.		
Technology & Digital Health	(Simulation, EHR use)		Telehealth pediatrics)		(Community outreach)	(E-Health management)	Informatics in Nursing	[Simulation lab records, syllabi]
Global Health & Sustainability		Maternal mortality context			(SDGs, PHC)			[Course outline, projects]

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Template 4.5. Blueprint Template Example (EPLOS-Competencies -CLOs–Teaching–Assessment)

Year / Level	Course Name	PLO	Competency Domain	CLO (Level-Specific)	Teaching & Learning Strategies	Assessment Methods
Year 1 – Introductory	Fundamentals of Nursing/Clinical	EPLO 1 – Apply Nursing Process	Safe & Effective Care	Perform basic assessments and document safely	Lectures, skills labs	clinical skills checklist, short written quizzes
Year 2 – Intermediate	Adult Health Nursing I/Clinical	EPLO 1 – Apply Nursing Process	Safe & Effective Care	Apply nursing process for adult cases, plan & implement care	Case-based learning, Task Trainer simulation, clinical rotations	care plan assignment, Bed side discussion
Year 3 – Advanced	Maternity and Neonatal health nursing /clinical	EPLO 1 – Apply Nursing Process	Safe & Effective Care	manage women and neonate care using nursing process	High fidelity simulation, clinical rotations	portfolio, comprehensive clinical evaluation, reflective assignments

Template 4.6. Digital checklist

Clinical Course	Digital Learning Resources Used
Fundamentals of Nursing	Learning Management System (LMS) Examples: Moodle, Blackboard, Canvas Skills Videos Lippincott Procedures
Adult Health Nursing I	LMS, EHR Training
Maternal & Child Health	
Pediatric Nursing

Template 4.9. Curriculum Review Checklist – Nursing Program

1. Program Information

Program Name:

Degree Level:

Review Date:

Reviewed By:

2. Curriculum Alignment

- ☐ End Program Learning Outcomes (EPLOs) clearly stated
- ☐ Alignment with national and international standards
- ☐ Alignment with institutional mission and vision
- ☐ Competency-based framework applied

3. Curriculum Structure & Design

- ☐ Logical progression from basic to advanced levels
- ☐ Balance between theory, lab, and clinical components
- ☐ Credit hours appropriately distributed
- ☐ Clinical hours meet regulatory requirements

4. Course Learning Outcomes (CLOs)

- ☐ CLOs aligned with EPLOs
- ☐ CLOs measurable and level-appropriate
- ☐ CLOs cover knowledge, skills, and professionalism
- ☐ CLOs reviewed and updated

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

5. Teaching & Learning Strategies

- ☐ Variety of teaching methods used
- ☐ Active and student-centered learning strategies
- ☐ Simulation and skills labs integrated
- ☐ Inter-professional education included

6. Assessment & Evaluation

- ☐ Assessments aligned with CLOs
- ☐ Variety of assessment methods used
- ☐ Clinical and OSCE assessments included
- ☐ Clear rubrics available

7. Clinical Education

- ☐ Clinical placements aligned with learning outcomes
- ☐ Adequate supervision provided
- ☐ Patient safety emphasized
- ☐ Clinical evaluation tools standardized

8. Technology & Digital Learning

- ☐ LMS effectively used across courses
- ☐ Digital learning resources integrated
- ☐ Simulation and other Technology learning methods included

9. Faculty Resources & Development

- ☐ Qualified faculty available
- ☐ Faculty workload appropriate
- ☐ Faculty development programs available
- ☐ Clinical instructors trained

10. Student Support & Resources

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

- ☐ Academic advising available
- ☐ Clinical support services provided
- ☐ Learning resources accessible
- ☐ Student feedback reflected in the curriculum

11. Quality Assurance & Continuous Improvement

- ☐ Curriculum review conducted regularly
- ☐ Stakeholder feedback collected
- ☐ Data used for curriculum improvement
- ☐ Action plans documented

12. Regulatory & Accreditation Compliance

- ☐ Compliance with national accreditation and regulatory standards
- ☐ Documentation available
- ☐ Previous recommendations addressed

13. Approval

Template 4.10. Clinical hours distribution

Course Title	Year / Level	Credit Hours	Contact Hours	Hours per Week	Number of Weeks*	Total Contact Hours**
Fundamentals of Nursing – Clinical	Year 1	3	12	12	16	192
Adult Health Nursing I – Clinical	Year 2	4	16	16	16	
Adult Health Nursing II – Clinical	Year 2	4	16	16	16	
Maternal & Newborn Nursing – Clinical	Year 3	3	12	12	16	
Pediatric Nursing – Clinical	Year 3	3	12	12	16	
Mental Health Nursing – Clinical	Year 3	3	12	12	16	
Community Health Nursing – Clinical	Year 4	3	12	12	16	
Leadership & Management – Clinical	Year 4	3	12	12	16	
Clinical Practicum	Year 4	3	12	12	16	
Simulation / Skills Lab (Clinical Equivalent)	All Levels	Simulation 15-25%=360				
TOTAL						1800

*Academic semester: 16 weeks

** ** Minimum Clinical hours =1800

*** Any extra indirect clinical hours more than 1800 hours can be documented and attach evidence.

Optional guide for clinical extra hours achievement:

1. Elective clinical courses (e.g. neonate, geriatric, critical care, oncology,...)
2. Zero credit hours of clinical training as graduate requirement calculated as contact hours

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

3. Micro-credential for certain courses (BLS, ACLS, PALS, NRP...)
4. Extra-curriculum capstone projects or assignments
5. High fidelity simulation
6. Inter-professional education courses

Policy on Documentation and Calculation of Additional Indirect Clinical Hours

1. Purpose

This policy establishes a standardized framework for documenting, calculating, and accrediting additional indirect clinical hours completed by nursing students beyond the minimum required 1,800 clinical hours, in accordance with national and international nursing accreditation standards.

2. Scope

This policy applies to undergraduate nursing students, faculty members supervising clinical learning, program administrators, and accreditation committees.

3. Policy Statement

The nursing program ensures that all graduates meet or exceed the minimum clinical practice hour requirement mandated by accreditation authorities. Additional indirect clinical hours may be formally recognized provided the activities are structured, supervised, competency-based, and supported by verifiable documentation.

4. Definition of Indirect Clinical Hours

Indirect clinical hours are supervised, practice-related learning activities that enhance clinical competence and occur outside traditional clinical placements.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

5. Eligible Categories

- Elective clinical courses (e.g., neonatal, geriatric, critical care, oncology)
- Zero-credit clinical training requirements
- Micro-credentials and certified clinical courses (BLS, ACLS, PALS, NRP)
- Extra-curricular capstone projects and clinical assignments
- Simulation-based clinical training
- Clinical volunteering and service learning
- Interprofessional clinical education activities

6. Translation to Contact Hours

- Supervised clinical practice: 1 hour = 1 contact hour
- High-fidelity simulation: 1 hour = 1 contact hour
- Certified courses: as stated in certificates
- Capstone projects: supervised clinical time only
- Zero-credit training: actual attendance hours

7. Documentation Requirements

Acceptable evidence includes attendance logs, certificates, supervisor verification, syllabi, and approved reports.

8. Governance and Quality Assurance

Activities are reviewed by the Program Clinical Committee and monitored by the Quality Assurance Unit.

9. Accreditation Alignment

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

This policy aligns with national accreditation standards and international frameworks including ICN, WHO, NLN, ACEN.

Template 4.11. Percentage of Competencies Guidance

Step-by-step guidance on how to calculate competency percentages per Program when all courses are out of 100 marks.

Step 1: Decide Competency Domains:

1. Safe & Effective Care (25–35%)
2. Physiological Integrity (25–35%)
3. Health Promotion (10–15%)
4. Psychosocial Integrity (5–10%)
5. Global Health / Technology / Economics (5–10%)

Step 2: Align competency domains percentages with program EPLOs

Competency Domain Percentage Alignment with EPLOS

Competency Domain	Primary EPLO Contributors	Achieved Program Distribution
Safe & Effective Care	EPLO 1, EPLO 6	25–35%
Physiological Integrity	EPLO 2, EPLO 3	25–35%
Health Promotion	EPLO 4	10–15%

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Psychosocial Integrity	EPLO 3, EPLO 5	5–10%
Global Health / Technology / Economics	EPLO 2, EPLO 5, EPLO 6	5–10%

Step 3: Integrate competencies percentages across the six nursing practice areas (Theory and clinical)

Each nursing course is delivered through a paired theory and clinical component. Competency percentages are divided between theory and clinical courses using a standardized master distribution.

The following example illustrates how competency domain percentages can be distributed across core nursing courses to collectively achieve the required program-level weighting.

All course scores are out of 100, you can simplify the calculation even more as No need to multiply by credit hours. Each course (Theory and clinical) contributes its domain percentages directly, and the program-level percentage is just the average across courses

Allocate Percentages Per Course

Decide how much of the courses (Theory and clinical) focus on each competency domain.

Each core nursing competency is intentionally divided between theory and clinical components across all courses.

Aggregation of course-level distributions demonstrate achievement of program-level competency targets while preserving assessment space for other End program learning outcomes.

For Example:

Example: Adult Health Nursing

- Safe & Effective Care = 35% total

-15% assessed in theory (MCQs, SAQs, case analysis....)

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

-20% assessed in clinical (OSCE, skills, safety clinical evaluation....)

A. Course-Level Distribution Matrix (Including Clinical Courses)

Course	Safe & Effective (%)	Physiological Integrity (%)	Health Promotion (%)	Psychosocial Integrity (%)	Global / Tech / Econ (%)	Total
Adult Health Nursing – Theory	15	12	8	3	2	40
Adult Health Nursing – Clinical	20	18	7	7	8	60
Maternal Health Nursing – Theory	15	12	8	3	2	40
Maternal Health Nursing – Clinical	20	18	7	7	8	60
Child Health Nursing – Theory	15	12	8	3	2	40
Child Health Nursing – Clinical	20	18	7	7	8	60
Mental Health Nursing – Theory	15	12	8	3	2	40
Mental Health Nursing – Clinical	20	18	7	7	8	60
Community Health Nursing – Theory	15	12	8	3	2	40
Community Health Nursing – Clinical	20	18	7	7	8	60

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Leadership & Management – Theory	15	12	8	3	2	40
Leadership & Management – Clinical	20	18	7	7	8	60

B. Aggregation Across All Courses

Program-level competency achievement is calculated by aggregating domain percentages across all theory and clinical courses and dividing by the total number of courses.

Number of courses = 12

(6 theory + 6 clinical)

Sum of Domain Percentages

Competency Domain	Sum Across Courses
Safe & Effective Care	$(15+20) \times 6 = 210$
Physiological Integrity	$(12+18) \times 6 = 180$
Health Promotion	$(8+7) \times 6 = 90$
Psychosocial Integrity	$(3+7) \times 6 = 60$
Global / Tech / Econ	$(2+8) \times 6 = 60$

C. Program-Level Calculation Method

(Divide by Number of Courses)

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Program-Level % = Sum of Domain Percentages/Number of Courses

Number of Courses = 6

D. Program-Level Competency Distribution

Competency Domain	Calculation	Program-Level %
Safe & Effective Care	$210 \div 6$	35%
Physiological Integrity	$180 \div 6$	30%
Health Promotion	$90 \div 6$	15%
Psychosocial Integrity	$60 \div 6$	10%
Global / Tech / Econ	$60 \div 6$	10%
TOTAL		100%

when aggregated across all core courses (Theory and Clinical), the overall program distribution achieved based only on total marks for (Theory and clinical) courses, no credit hours needed.

Can Adjust Based on Course Emphasis for example

- Clinical courses (Adult, Maternal, Child) emphasize Safe & Effective Care and Physiological Integrity.
- Psychiatric and Community Health courses strengthen Psychosocial Integrity and Health Promotion.
- Leadership and Management courses contribute primarily to Global Health, Technology, Economics .

Note: Individual course distributions may exceed domain limits; compliance is ensured at the program level, consistent with accreditation requirements.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Template 4.12. Simulation hours and courses integration

Simulation Integration and Guidelines Template/ Percentage of Total Clinical Hours Allocated to Simulation

(Requirement: 15–25% of total clinical hours)

Category	Credit hours	Total Clinical Hours*	Simulation Hours**	% of Total Clinical Hours Allocated to Simulation	Compliance with Standard (15–25%)	Evidence / Document Link
Program Total clinical		1,800 hrs	360 hrs	20%	✓ Within Range	[Simulation log / records]
Adult Nursing	3	192 hrs*	48 hrs**	25%	✓	[Course syllabi]
Maternal Health		400 hrs	80 hrs	20%	✓	[Rotation schedule]
Child Health		300 hrs	60 hrs	20%	✓	[Lab manual]
Mental Health		200 hrs	40 hrs	20%	✓	[Case-based scenarios]
Community Health		200 hrs	40 hrs	20%	✓	[Simulation reports]
Leadership/Management		100 hrs	20 hrs	20%	✓	[Capstone simulation]

*3 credit hours x 4=12- in 16 weeks /term (12x16=192 hours) including training in clinical setting, labs, and simulation

** 192 total clinical hours x25% simulation= 48Hours simulation

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Curriculum Map: Simulation Embedded Across Courses

Course Code / Title	Year/Semester	Simulation Component	Competencies Addressed	Teaching/Learning Strategies	Assessment Methods	Evidence (Links)
NURS 210 – Fundamentals of Nursing	1/2	Basic clinical skills, patient safety scenarios	Safe practice, documentation	Skills lab, high-fidelity manikins	OSCE, skills checklist	[Course syllabus]
NURS 320 – Adult Nursing I	4	Case-based acute care simulation	Critical thinking, teamwork	Simulation scenarios, debriefing	Performance rubric	[Scenario manual]
NURS 330 – Maternal & Newborn Nursing	5	Obstetric emergency simulation	Decision-making, teamwork	Role-play, scenario-based	OSCE, peer assessment	[Lab guide]
NURS 410 – Community Health Nursing	7	Disaster & public health drills	Leadership, interprofessional collaboration	Simulation exercises	Project reports, reflection logs	[Community drills report]
NURS 420 – Leadership & Management	8	Management & delegation scenarios	Leadership, resource management	Simulation + case study	Reflective journal, rubric	[Capstone evaluation]

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Template 4.13. EPLO-Competency-Clinical Evaluation

Clinical Evaluation Tool – EPLO Mapping Template

This clinical evaluation tool maps each assessment criterion to the relevant End Program Learning Outcomes and competency domains.
Aggregated clinical course data contributes to overall program achievement of competency distribution targets while ensuring balanced assessment of all EPLOs.

Item	Details
Program	Bachelor of Nursing
Course Name	_____
Clinical Area	☐ Adult ☐ Maternal ☐ Child ☐ Mental Health ☐ Community ☐ Leadership
Clinical Level	☐ Year 1 ☐ Year 2 ☐ Year 3 ☐ Year 4
Total Clinical Marks	100

Clinical Performance Criteria – EPLO Mapping Example

Clinical Performance Criterion	Related EPLO	Competency Domain	Assessment Method	Marks (%)
Performs patient assessment safely and accurately	EPLO 1	Safe & Effective Care	Direct observation / checklist	___
Maintains infection control and patient safety standards	EPLO 1	Safe & Effective Care	Observation	___
Provides psychosocial support to patients and families	EPLO 3	Psychosocial Integrity	Clinical evaluation	___
Applies health education during patient care	EPLO 4	Health Promotion	Patient teaching evaluation	___

Program Quality Improvement Plan

Identified Gap	Action Plan	Responsibility	Timeline

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Template 4.15. Guidance for Conducting Progression Points to Assess Student EPLO Achievement

Progression Points Assessments are conducted at the end of Years 2 and 3 to monitor and document student achievement of End Program Learning Outcomes.

Assessment results inform student remediation, curriculum enhancement, and ensure that all graduates meet national and international nursing competency standards.

These assessments do not replace course-level grading but provide an aggregate program-level measure of EPLO achievement.

- Purpose of Progression Points Assessments

- Monitor student progression toward achieving all End Program Learning Outcomes (EPLOs) across the curriculum.
- Identify strengths and gaps in student learning at mid-program (end of Year 2) and late program (end of Year 3).
- Inform remediation plans, curriculum adjustments, and teaching strategies to ensure all students meet EPLO expectations by program completion.

-Incentivize Participation Without Grade Penalties

Students are more motivated when they see direct value:

- Formative Feedback: Explain that the exam shows what they know and what gaps remain before final years.
- Personal Benchmarking: Provides insight into their strengths and weaknesses relative to program expectations.
- Preparation for Licensing Exams: Highlight that the exam aligns with national and international competency frameworks, helping them prepare for JNC licensing exams and international exams like NCLEX
- Remediation Opportunities: Students can use results to access targeted workshops, or mentorship.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Timing of Assessments

Assessment Point	Year / Semester	Purpose
Progression Assessment 1	End of Year 2	Evaluate early achievement of foundational EPLOs
Progression Assessment 2	End of Year 3	Evaluate advanced EPLOs and overall readiness for final-year

Components of Progression Points Assessment

Progression Points Assessment can be multi-modal, combining theory and clinical evaluations:

1. Theory Examination

-Cumulative MCQs, SAQs, and case-based questions covering EPLOs achieved in Years 1–2 (for Year 2 assessment) or Years 1–3 (for Year 3 assessment).

-Weighted according to competency domain distribution (e.g., Safe & Effective Care 35%, Physiological Integrity 30%, etc.).

2. Clinical Evaluation

-OSCEs evaluations reflecting application of competencies in realistic practice scenarios.

3. Capstone or Integrative Assessment (Year 3)

-Comprehensive project or simulation integrating multiple EPLOs.

-Evaluates synthesis, critical thinking, and decision-making across practice areas.

Assessment Design Principles

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

- Aligned to EPLOs: All exam questions and clinical tasks must be explicitly mapped to the relevant EPLOs.
- Standardized Scoring: Use rubrics and achievement levels defined by the faculty to ensure consistency across students and evaluators.
- Balanced Weighting: Maintain proportional contribution of each competency domain (Safe & Effective Care, Physiological Integrity, etc.) as defined in the program framework.
- Transparent Communication: Students are informed about which EPLOs and competencies are assessed.

Data Collection and Analysis

Collecting Scores

- Aggregate student scores from theory / clinical assessments linked to each EPLO.
- Record achievement levels (Not Achieved / Partially Achieved / Achieved / Exceeded).

Progression Report

- Summarize EPLO achievement and highlight EPLOs requiring remediation.
- Design targeted remediation sessions, or additional clinical practice.

Follow-Up

- Progression assessments inform Year 3 and final-year curriculum adjustments.
- Students below benchmark receive personalized learning plans.

Results feed into program review, accreditation reporting, and continuous quality improvement

Glossary

Accreditation

A formal process by which an authorized national body evaluates and recognizes that an educational program meets established quality standards.

Accreditation and Quality Assurance Commission (AQAC)

The national authority in Jordan is responsible for licensing, accreditation, and quality assurance of higher education institutions and academic programs.

Action Plan

A documented set of corrective or improvement measures with defined responsibilities, timelines, and indicators has been developed to address identified gaps.

Advisory Board / Community Advisory Board

A group of external stakeholders, including healthcare providers and community representatives, that provides input and feedback to support program improvement.

Assessment

Systematic processes used to evaluate student learning, program outcomes, or institutional effectiveness using qualitative and quantitative measures.

Bachelor of Science in Nursing (BSc Nursing)

An undergraduate academic degree that prepares students for professional nursing practice and licensure.

Benchmarking

The process of comparing program performance, curriculum, or outcomes with national or international standards or peer institutions to identify best practices.

Clinical Educator

A qualified nursing professionals responsible for supervising, teaching, and evaluating students during clinical practice, including faculty, instructors, and preceptors.

Clinical Learning Environment

Healthcare settings such as hospitals, clinics, or community facilities where students acquire practical nursing skills under supervision.

Clinical Placement

The structured assignment of students to approved healthcare settings to achieve clinical learning outcomes and competencies.

Competency

An observable and measurable combination of knowledge, skills, values, and professional behaviors required for safe and effective nursing practice.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Continuous Professional Development (CPD)

Ongoing educational activities undertaken by faculty or clinicians to maintain and enhance professional competence.

Continuous Quality Improvement (CQI)

A systematic, data-driven approach to improving program effectiveness through regular evaluation and enhancement.

Course Learning Outcomes (CLOs)

Specific statements describing what students are expected to know and be able to do upon completion of a course.

Curriculum Mapping

A structured process that aligns course learning outcomes, teaching strategies, and assessment methods with End program learning outcomes.

End-of-Program Learning Outcomes (EPLOs)

Competencies and abilities that students are expected to demonstrate upon graduation from the nursing program.

Evidence

Documented information used to demonstrate compliance with accreditation standards, including policies, reports, data, and records.

Faculty-to-Student Ratio

The numerical relationship between faculty members or clinical instructors and students, particularly during clinical training.

Governance

The framework of leadership, decision-making structures, roles, and responsibilities that guide program management and accountability.

Jordanian Nursing Council (JNC)

The national regulatory body responsible for nursing education standards, licensure, and professional practice in Jordan.

Key Performance Indicators (KPIs)

Measurable values used to evaluate the effectiveness, efficiency, and quality of program processes and outcomes.

Licensure Examination

A national examination that nursing graduates must pass to obtain legal authorization to practice as registered nurses.

الدليل الإرشادي لمعايير الاعتماد الخاص لبرامج التمريض

Memorandum of Understanding (MOU)

A formal agreement between the nursing program and clinical training institutions outlining roles, responsibilities, and expectations.

National Qualifications Framework (NQF)

A national system that defines levels of academic qualifications and learning outcomes to ensure consistency and comparability.

Outcome-Based Education (OBE)

An educational approach that focuses on clearly defined learning outcomes and the achievement of competencies.

Program Goals

Broad, general intentions of the program, describe what the program aims to achieve, focus on the program, not directly on students, and usually not measurable. Program goals guide the development of end-of-program learning outcomes.

Program Effectiveness

The extent to which a nursing program achieves its stated goals, learning outcomes, and accreditation standards.

Quality Assurance (QA)

Planned and systematic activities are implemented to ensure that educational standards and learning outcomes are consistently met.

Self-Study Report (SSR)

A comprehensive internal evaluation document prepared by the program that demonstrates compliance with accreditation standards.

Simulation-Based Learning

An instructional method using simulated clinical scenarios to enhance experiential learning and clinical competence in a safe environment.

Stakeholders

Individuals or groups with an interest in the nursing program, including students, faculty, employers, alumni, regulatory bodies, and the community.

Student Progression

The systematic monitoring of students' academic and clinical advancement throughout the program until graduation.

Student Support Services

Academic, psychological, career, and administrative services are provided to promote student success and well-being.
