Education:

Sep. 2013- Aug. 2015

Jordanian University (JU), Jordan (Aug.2015).
Master Civil Engineering/Water & Environmental
Engineering.
Theses: **Adsorption of lead (Pb+2) from industrial
wastewater using low cost material.**

Sep. 2006 – Jan. 2011.

Al-Hussein Bin Talal University (AHU), Jordan
(Jun. 2011). B.Sc. in Environmental Engineering.
Faculty of Engineering (Rating **1st** with an average
83.04%). (**I have been funded from Ministry of
Higher Education & Scientific Research**).

Sep. 2005 – July 2006

The General Secondary Education Certificate, Jordan.
Rating- very good.

Professional Experience:

Sep. 2015 – Present

Al-Hussein Bin Talal university, Faculty of Engineering, Full
time Lecturer

Training Courses:

Jun. – Aug 2010

Arab Center of Engineering Studies (ACES), Amman

March 12-14 2009.

Creative Thinking Course

Apr 12-16 2012

Improve The Quality Of Institutions

Apr. 24-26 2012

The Art of Crisis Management

March 12-14 2012

The Sixth Jordan Chemical Engineering Conference
(JICHE06)

Sep. – Oct 2012.

Employability And Life Skills, Organized by UNDP.

Career Objective

- To prepare and develop assessment studies and improve procedures toward environmentally friendly practices.
- To help alter harmful practices by substituting equally efficient, but less detrimental methods.

- To improve existing products and procedures to make them more sustainable.
- To work with companies to reach the best possible solutions.

Professional Affiliation:

Member Jordan Engineers Association
